*Proceedings of the Madras Government, Revenue Department,
13th August 1875.*

No. 144. Read the following Endorsement of the Officiating Inspector of Forests, dated Ootacamund, 29th July 1875, No. 392 :—

Read the following letter from Captain C. WALKER, Officiating Inspector of Forests, to J. R. COCKERELL, Esq., Commissioner of the Nilgiris, dated Ootacamund, 29th July 1875, No. 391.

With reference to G.O., No. 700, dated 5th June 1874, on Dr. Bidie's report on the Nilgiri parasitical plants, I have the honor to suggest that you call Captain Jago's attention to Dr. Bidie's remarks in paragraphs 25, 29, 30, 31, 32, and 33.

2. The point mooted in paragraph 25 might be made subject for experiment.
3. I quite endorse Dr. Bidie's conclusions as expressed in the other paragraphs quoted, viz., (1) that it would be impossible to remove the parasites with the knife in our extensive plantations; (2) that trees affected should at once be felled; and (3) that the further planting of *Acacia melanoxylon* on the Nilgiris is not advisable.

4. If you concur in these views, I beg that you will request the Deputy Conservator to issue the orders necessary to enforce them to his range overseers.

FORWARDED to Secretary to Government, Revenue Department, with reference to concluding paragraph of G. O., No. 700, dated 5th June 1874.

(Signed) C. WALKER, Captain,
Officiating Inspector of Forests.

No. 145.

ORDER THEREON, 13th August 1875, No. 1,228.

Forests, No. 10.

THE Government desire that special attention be paid to this subject by the Nilgiri Forest Officer.

(True Extract.)

(Signed) A. MACGREGOR,
Acting Secretary to Government.

N^o 391
From

Captain Campbell Walker
Officiating Inspector of Forests

To The Commissioner
Nilgiris

Sir,

With reference to G. O. N^o 700 dated
5th June 1894 on D^r Bidie's Report
on the Nilgiri parasitical plants,
I have the honor to suggest that
you call Captain Jago's attention
to D^r Bidie's remarks in paras, 25,
29, 30, 31, 32, and 33.

2. The point mooted in para.
25 might be made subject for
experiment.

3. I quite endorse D^r Bidie's
conclusions as expressed in the other
paras quoted viz (1) that it would
be impossible to remove the
