Proceedings of the Madras Government, Revenue Department,
30th August 1875.

No. 287. Read the following Proceedings of the Board of Revenue, dated 18th August 1875, No. 2,329:—

Read Proceedings of the Madras Government, dated 9th August 1875, No. 1,189, Revenue Department:—

Read again paragraphs 7 and 8 of the Board's Proceedings, dated 26th May 1875, No. 1,430, recorded in G.O., dated 21st June 1875, No. 1,301.

Read also Proceedings of the Board of Revenue, dated 9th July 1875, No. 1,911:—

Read Proceedings of the Madras Government, dated 30th June 1875, No. 981, Revenue Department.

Read Proceedings of the Madras Government, dated 21st June 1875, No. 1,301.

THE Board presume that the statements referred to in paragraph 2 of the order above read are those referred to in paragraph 16 of the Resolution of the Government of India printed with G. O., dated 22nd April 1875, No. 639. If so, the Board find that it is impossible to give all the information required for 1874-75, and for the previous four years. To make this quite clear, the Board will briefly explain the character of the information required which is as follows:—

Paragraph 7, Board's Proceedings, dated 26th May 1875, No. 1,430.

(1.) A statement showing the weights and quantities of all articles, of which only values have been hitherto shown.

A list of such articles is appended, and the Board have ascertained in the Custom Office at Madras, that it would be impossible to get the information for all the articles, as the particulars have not been recorded.

(2.) A return of the trade through the Suez canal.

This information is available in the Board's Office for 1874-75 and 1873-74, and will be furnished. For the other three years the Board understand that there are no records in the districts which contain the information.

(3.) The particulars of trade with *ports* of certain countries in Europe.

The Board find that even in the Custom Office at Madras this information is not available in all cases.

(4.) Statement of vessels built and first registered at each port.

This information is available in the Marine Office, and will be submitted to Government of India within a week.

(5.) A statement showing the coasting trade within the Presidency.

Information appears to be required for each article exported and imported within the Presidency. No information of this kind having been hitherto required with regard to this trade, it has now, for the first time, to be tabulated in the Custom Offices from the list of exports and imports. It is not likely that the quantities can be obtained in the denominations now required, and the Board fear that it will be some time before the statement can be got ready. The Collectors will, however, be called upon to furnish it as soon as possible, first for 1874-75, and then for previous years.

(6.) Shipping returns exhibiting the countries to and from which each ship of any particular nationality entered and cleared.

This information is not available in the Board's or Marine Office. The Collectors will at once be requested to endeavour to prepare and submit the statements.

2. The Board have gone through the heads under which additional information is classed in paragraph 10, but from the language of paragraph 16, it is not clear that more is required than that the two entirely new forms (Heads 2 and 4) should be filled up.

3. With reference to the fourteen statements required by the Secretary of State, those noted in the margin, which relate to the trade, will be submitted within a week filled up with the information available as now directed by Government in paragraph 5 of their order.

Nos. 15 to 22.

4. As regards the tonnage statements, the necessary information is not available in the Board's or Marine Office. The Board have called upon Collectors to furnish the information, and the statements will be submitted as soon as possible.

Nos. 23 to 28.

5. Adverting to the remark of Government that they were taken by surprise at the avowed inability of the Board to furnish the statements for 1874-75, as no such doubts were expressed in their Proceedings, dated 12th April 1875, No. 900, the Board beg to explain that till G. O., dated 22nd April 1875, No. 639, was received, the Board were under the impression that the new forms required were only to to be adopted from 1875-76, as the letter of the Government of India printed with G. O., dated 11th February 1875, No. 219, with reference to which the forms were received on the 15th March 1875, does not state that they are required for 1874-75. On the contrary, from paragraph 4 of the letter of Government of India, the Board were led to think that the forms would only be required from 1875-76, but as soon as they perceived from G.O., dated 22nd April 1875, No. 639, that they were expected for 1874-75, the Board lost no time in representing the difficulties and requesting Government that they might be allowed to send the returns for 1874-75 in the old forms (Board's Proceedings, dated 26th May 1875, No. 1,430). No doubt some information could have been obtained by a reference to the Collectors, but the Board thought that the submission of partial information, and at a late period, would not be of much use to the Government of India, while it would impose no little labor on Collectors.

THESE Proceedings will be submitted to the Government of India.

2. The Government are glad to learn that the bulk of the statements required for the Secretary of State will so soon be submitted, and trust that it may be found possible to furnish the remainder at an early date.

The Government of India have already been informed that these returns cannot be prepared in a complete form, and it has been pointed out that their introduction for the year 1874-75 was not expressly directed in Circular Nos. 82-85.

It must at the same time be observed that the instructions conveyed in paragraph 1* of that circular should have prevented any misapprehension as to the intentions of the Government of India.

* "Those forms, fourteen in number, are forwarded herewith, and it is requested that *they* may be circulated to all the ports in Madras to be filled up....."

3. As to the statements prescribed by the Government of India, and referred to in their Resolution of the 9th of April last, Nos. 66C, 69C, the Government have little doubt that all forms containing any additional information are required, and not merely those that are entirely new.

PROCEEDINGS OF THE BOARD OF REVENUE, dated 18th August 1875.

Read the following Proceedings of the Madras Government, dated 9th August 1875, No. 1,189, Revenue Department :—

Read again paragraphs 7 and 8 of the Board's Proceedings, dated 26th May 1875, No. 1,430, recorded in G.O., dated 21st June 1875, No. 1,301.

Read also the following Proceedings of the Board of Revenue, dated 9th July 1875, No. 1,911 :—

Read Proceedings of the Madras Government, dated 30th June 1875, No. 981, Revenue Department.

ABSTRACT.—Communicating to the Board telegram from Government of India, requesting that the trade returns called for may be expedited as soon as possible.

THE telegram from the Government of India evidently relates to the returns required for the Secretary of State in G. O., dated 11th February 1875, No. 219, although paragraph 2 of the Board's Proceedings, dated 12th April 1875, No. 900, with reference to which the telegram has been communicated, applies to the annual volume of 1874-75.

2. Besides the difficulty of getting information regarding the trade for each port in this Presidency, there are other difficulties in connection with the statements required by the Secretary of State for 1874-75. They are as follow :—

(1.) The foreign ports from and to which articles are imported and exported are not known, but only the countries.

(2.) The quantities for certain articles for which values alone are given in the accounts cannot be ascertained and *vice versâ*.

(3.) The nationality of vessels entered and cleared from and to each foreign country cannot be ascertained without further inquiry.

(4.) Vessels entered and cleared from and to ports within the Presidency cannot be ascertained without calling for information from the districts.

3. Under these circumstances, the Board represented in their Proceedings, dated 26th May 1875, No. 1,430, that the statements could not be forwarded for 1874-75, and requested that their submission for that year might not be pressed, and the Government approved of their suggestion in their Order, dated 21st June 1875, No. 1,301.

4. The Board now request to be informed whether the statements should be prepared for 1874-75 with the imperfections above pointed out, or whether they may send the usual statements which are almost ready, leaving the new forms to be adopted from 1875-76. It will take at least a month for the new forms to be filled up with the information available in this office.

RECORDED.

ORDER THEREON, 9th August 1875, No. 1,189.

The suggestions in paragraphs 7 and 8 of the Board's Proceedings of the 26th May 1875, No. 1,430, did not escape notice, but pending a reply from the Government of India to a reference which had been made to them on Board's Proceedings, 12th April 1875, No. 900, the issue of definite instructions was postponed.

2. In the matter of the statements called for by the Government of India, the Board should forward, at an early date, the information required for 1874-75, and report to Government whether further investigation has shown that it will be impossible to obtain that required for previous years.

3. The Board's avowed inability to furnish for 1874-75 the statements required by the Secretary of State, has quite taken the Government by surprise, as in their Proceedings of the 12th April last, No. 900, nearly two months after the Circular of the Government of India had been communicated to them, no such doubts were expressed by the Board.

4. His Excellency the Governor in Council is constrained to observe that the difficulties experienced in the preparation of these forms ought to have been detected at a much earlier date. Some of them, it would appear from the detailed explanation now afforded, could have been removed by so simple a measure as a reference to the districts, and the delay that has occurred calls for explanation.

5. The information available should now be recorded in the *new* forms, and during their preparation a further reference should be made regarding points (3) and (4) in paragraph 2 of the Board's Proceedings of the 9th July 1875, No. 1,911. The Marine Department might possibly be able to render some assistance.

6. The Government of India, in a letter which will be separately communicated to the Board, intimate that the forms from other provinces have already been received, and express their disappointment at the delay in Madras, where they remark "it would seem that no attempt was being made to furnish them."

7. Great stress is laid by the Home Government on the early submission of *all* these statistical returns, and His Excellency trusts that strenuous efforts will be made to submit them with the least possible delay.

THE Board presume that the statements referred to in paragraph 2 of the order above read are those referred to in paragraph 16 of the Resolution of the Government of India printed with G. 1875, No 1189, passing remarks on Board's
Proceedings pointing out certain difficulties
in the preparation of Sadr returns for
1874-75, and requesting that they may be
submitted without any delay as the Home
Government lay great stress on their early
submission.

The Board presume that the State-
=ments referred to in para 2 of the order above
read, are those referred to in para 16 of the
Resolution of the Government of India
printed with Government Order dated 22nd
April 1874, No 639. If so the Board find that

As regards the Tonnage Statements, Nos 23 to 28
the necessary information is not available

Adverting to the remark of Govern-

on the 15th March 1875 does not state that
they are required for 1874-75. On the
contrary from para 4 of the letter of
Government India the Board were led
to think that the forms would only be
required from 1875-76, but as soon as
they perceived from Government Order
dated 22nd April 1875, No 639, that they
were expected for 1874-75, the Board

Pro. 30 August 1875

Vide G. O. 30 August 1875 No. 1299.

Trade Returns — of Madras Presidency — Returns of the information required by Govt. of India regarding — Explained — Remarks submitted with reference to Board's inability to furnish the information.

No. 287.

these returns cannot be prepared in a complete form if it has been pointed out that their introduction for the year 74-75 was not expressly directed in circular Nos 82-85.

It must at the same time be observed that the instructions conveyed in para 1 of that circular should have prevented any misapprehension as to the intentions of the Government of India
