No. 79. Read the following Proceedings of the Board of Revenue, dated 8th July 1875, No. 1,888:—

Read the following letter from R. K. PUCKLE, Esq., Acting Third Member of the Board of Revenue, in charge of the Settlement Department, to H. E. STOKES, Esq., Acting Secretary to the Board of Revenue, dated Coimbatore, 29th June 1875, No. 1,305-35:—

I HAVE the honor to forward a scheme for the revision of the village establishment of a taluq of the Salem District called for in Government Proceedings, No. 391, dated 9th March 1875.

2. I am unable to report on Dharampuri as there is no map of the taluq, and the country is so wild and thinly inhabited that a scheme for this taluq would not apply to the richer taluqs of Salem. I have, therefore, selected Trichengode a fair average Talaghaut Taluq, proposals for which have been already submitted by the present Collector, Mr. Longley, and embodied in Board's Proceedings, No. 82, dated 21st January 1873.

3. The Trichengode Taluq comprises 104 villages with a present establishment (irrespective of Mr. Longley's grouping) of 131 curnams, 191 munsifs and monegars, 124 tandalgars, and 424 totis now paid, in money, Rupees 18,788 per annum.

4. The service-cess, at one anna per rupee of assessment, will yield Rupees 18,426. This, with the ready-money allowances now paid by Government, is more than sufficient to pay the establishment needed.

5. Mr. Longley merged the 104 villages into 64 groups for curnams, and into 85 groups for other classes of village servants. I have modified this arrangement by forming 82 groups for curnams only and allotting separate establishments of munsifs, taliaris, &c., to 102 of the 104 villages. Of the two that are unavoidably merged, Gidakaval is uninhabited and Agrahara Nattamangalam is virtually a hamlet of Circar Nattamangalam, and is too small to afford an establishment.

6. The Act provides for monegars as well as munsifs where needed, and in 38 large villages where one man cannot perform the onerous duties required, I have provided a monegar to relieve the munsif of part, at all events, of the work of collecting the revenue and to ensure the presence of an officer in the village during the frequent absence of the munsif [illegible] the Courts and Cutcherries. I think it very essential that wherever funds ad[illegible]t there should be a second officer.

7. To frame a scale of rates for the remuneration of village officers, I have taken the only village (Edanganasalei) that can just about pay a full establishment what might be adopted as maxima rates from its service-cess alone, thus—

	RS.	A.	P.
Total annual cost of proposed village establishment	480	0	0
Assets of service-cess	480	6	0

and, accepting this as a standard, I have apportioned the pay of establishment in each smaller village with reference to its aggregate assets (including service-cess and ready-money allowances), so that each village may be self-supporting and yet, in some cases, leave a small surplus from ready-money allowances to credit to the general fund.

8. In this taluq the revenue subordinates are styled tandalkars, and are usually men of caste; the Police subordinates are styled totis, and are invariably pariahs. I have here called the Police subordinates taliaris and the revenue subordinates vettiyans. Eight villages cannot afford a vettiyan, and in these the taliari must perform double duty.

Vettiyans can be hereafter appointed and paid from the general fund if required.

9. As the village that yields the largest amount of service-cess has been taken as the standard, and the establishment proposed for that village costs the full amount of the cess, the entire cess raised in each village is consequently spent on establishment, and there is no balance of service-cess to credit to any particular village. There is, however, an unappropriated balance of resumed ready-money allowances, amounting to Rupees 5,331-12-8, to be carried to the credit of the general fund. In villages where the cess and ready-money allowances combined are insufficient to pay an establishment, these assets have been supplemented from the general fund to the extent of Rupees 20-15-2.

10. As, on the principle here proposed, each taluq will be self-supporting and will have a surplus to credit to the general fund, the salaries of the lower-paid officers can be augmented or their number can be increased, and there will still be money to spend on the construction of village chavadies, the equipment of Police taliaris, &c., or it may be found possible eventually to reduce the cess from one anna to some lower figure per rupee of assessment.

11. Commencing from the north of the taluq, Pakanad, an unsurveyed village in an unhealthy locality, area 1,908 acres, population 877, revenue Rupees 1,398, has a curnam, a munsif, four taliaris, and two vettiyans at present. A curnam, a munsif, a taliari, and a vettiyan are all that this village can afford, as the cess is but Rupees 87-5-0 and the ready-money allowances Rupees 1[illegible]-13-11; total assets Rupees 233-2-11.

This and the following village formed one group in Mr. Longley's proposals, but each can afford an establishment.

1341/2

Calculating the rateable pay of these men with reference to the standard of Edanganasalei, the curnam, No. 1 in the accompanying map, should receive Rupees 8, the munsif Rupees 5, the taliari Rupees 3, and the vettiyan Rupees 3 per mensem; total Rupees 228 per annum.

12. Adayur, also an unsurveyed village, area 982 acres, population 614, revenue Rupees 1,707, has a curnam, a munsif, four taliaris, and a vettiyan at present. A curnam, a munsif, a taliari, and a vettiyan are all that this village can afford, as the cess is but Rupees 106-12-0 and the ready-money allowances Rupees 161-2-2; total Rupees 267-14-2. The curnam, No. 2 in the map, should receive Rupees 9, the munsif Rupees 7, the taliari Rupees 3, and the vettiyan Rupees 3 per mensem; total Rupees 264 per annum.

13. Avadatur, also an unsurveyed village, area 2,069 acres, population 2,388, revenue Rupees 2,959, has a curnam, a munsif, three taliaris, and two vettiyans at present. A curnam, a munsif, two taliaris, and two vettiyans are all that this village can afford, as the cess is but Rupees 194-15-0 and ready-money allowances Rupees 183-13-7; total Rupees 368-12-7. A curnam, No. 3 in the map, should receive Rupees 10, a munsif Rupees 7, two taliaris Rupees 3 each, and two vettiyans Rupees 3 each per mensem; total Rupees 348 per annum.

14. Irupali, a surveyed village, area 3,846 acres, population 3,210, revenue Rupees 4,927, has a curnam, a munsif, six taliaris, and two vettiyans at present. This village, No. 4 in the map, can well afford a full establishment paid at maxima rates, *viz.*—

16. Settimankurichi, area 2,565 acres, population 2,309, revenue Rs. 3,615, has a curnam, a munsif, two taliaris, and three vettiyans at present. A curnam, a munsif, two taliaris, and two vettiyans are all that this village can afford, as the cess is but Rupees 225-14-0 and the ready-money allowances Rupees 178-15-10; total Rupees 304-13-10. A curnam, No. 6 in the map, should receive Rupees 7, a munsif Rupees 6, two taliaris Rupees [illegible] each, and two vettiyans Rupees 3 each per mensem; total Rupees 300 per annum.

17. Avaneperur Kilmugam, area 1,543 acres, population 1,019, revenue Rupees 3,664, has a half-share in a curnam, a half-share in three munsifs, a half-share in three taliaris, and a half-share in three vettiyans at present. A curnam, a munsif, a monegar, two taliaris, and two vettiyans are all that this village can afford, as the cess is but Rs. 229-8-0 and ready-money allowances Rupees 212-10-3; total Rupees 442-6-3. A curnam, No. 7 in the map, should receive Rupees 10, a munsif Rupees 7, a monegar Rupees 5, two taliaris Rupees 3 each, and two vettiyans Rupees 3 each per mensem, or Rupees 408 per annum.

This and the following village formed one group in Mr. Longley's proposals, but each can afford an establishment.

18. Avaniperur Melmugam, area 2,744 acres, population 2,161, revenue Rupees 5,809, has an establishment as above at present. This village, No. 8 in the map, can well afford a full establishment at maxima rates, *viz.*—

20. Pulampatti, area 3,780 acres, population 1,844, revenue Rupees 4,504, has a curnam, a munsif, four taliaris, and a vettiyan at present. A curnam, a munsif, a monegar, two taliaris, and three vettiyans are all that this village can afford, as the cess is but Rupees 281-8-0 and ready-money allowances Rs. 192-9-1; total Rupees 474-1-1. A curnam, No. 10 in the map, should receive Rupees 10, a munsif Rupees 7, a monegar Rupees 5, two taliaris Rupees 3 each, and three vettiyans Rupees 3 each per mensem; total Rupees 444 per annum.

21. Mudalkalvai, area 1,452 acres, population 1,249, revenue Rs. 1,643, has a curnam, a munsif, five taliaris, and four vettiyans at present. A curnam, a munsif, a taliari, and a vettiyan are all that this village can afford, as the cess is but Rupees 102-11-0 and ready-money allowances Rupees 137-12-4; total Rupees 240-7-4. A curnam, No. 11 in the map, should receive Rupees 8, a munsif Rupees 6, a taliari Rupees 3, and a vettiyan Rupees 3 per mensem; total Rupees 240 per annum.

Proceedings of the Madras Government, Revenue Department,
10th September 1875.

22. Nedangulam (this is the first village that has to be clubbed to form a curnam's charge), area 1,200 acres, population 326, revenue Rupees 959, has a curnam, a munsif, two taliaris, and two vettiyans at present. A half-share in a curnam, a munsif, a taliari, and a vettiyan are all that this village can afford, as the cess is but Rupees 59-15-0 and ready-money allowances Rupees 89-10-7; total Rupees 149-9-7. A half-share in a curnam, No. 12 in the map, should receive Rupee 1, a munsif Rupees 5, a taliari Rupees 3, and a vettiyan Rupees 3 per mensem; total Rupees 144 per annum.

Mr. Longley's grouping of this and the following village is retained unaltered.

23. Koveripatti, area 2,223 acres, population 1,138, revenue Rupees 2,878, has a curnam, a munsif, five taliaris, and two vettiyans at present. A half-share in a curnam, a munsif, two taliaris, and two vettiyans are all that this village can afford, as the cess is but Rupees 179-14-0 and ready-money allowances Rupees 195-0-5; total Rupees 374-14-5. A half-share in a curnam should receive Rupees 9, a munsif Rupees 7, two taliaris Rupees 3 each, and two vettiyans Rupees 3 each per mensem; total Rupees 336 per annum.

24. Arasiramani, area 4,195 acres, population 2,039, revenue Rupees 6,641, has a curnam, three munsifs, eight taliaris, and four vettiyans at present. This village, No. 13 in the map, can afford a full establishment paid at maxima rates, *viz.*—

COIMBATORE,
29th June 1875.

(Signed) R. K. PUCKLE,
Acting Third Member of the Board of Revenue,
in charge of the Settlement Department.

ENCLOSURE No. 2.—Map.

IN this report the Acting Director of Revenue Settlement shows cause for selecting the Trichengode Taluq in preference to Darampuri as ordered in Government Proceedings, No. 391, dated 9th March 1875. Trichengode is, no doubt, a better average taluq, as the bulk of the villages can afford to maintain independent establishments, and several other taluqs of Salem District can be treated like Trichengode.

2. The results are satisfactory; the standard of pay and establishment has been fixed with reference to the assets of service-cess in the village paying the largest amount of cess in the taluq; and, taking this standard as a maximum, establishments have been allotted to 102 of the 104 villages of which the taluq is composed, varying in strength and emoluments with reference to the total assets of cess and existing allowances in each village.

3. The Acting Director of Revenue Settlement has worked out his proposals on the actuals of each village instead of taking one-ninth, or this taluq's share of the Rupees 1,20,000 allotted to the Salem District by Government, as the equivalent of the ready-money allowances now paid to village servants, and working on actual assets of course ensures greater accuracy.

4. The establishment proposed is liberal, and the large balance, amounting to Rupees 5,332, to credit of the general fund seems to indicate that the cess may be fairly reduced when each taluq is settled in this manner and the total balance to credit of the district is known.

5. The Board resolve to submit these proposals for the favorable consideration of Government in continuation of Board's Proceedings, No. 1,753, dated 22nd June 1875.

6. The present scheme is, in principle and in detail, exactly similar to that for Chingleput reviewed in the Proceedings just quoted. There have been no recognized village merahs in Salem since 1803, and therefore there can be no comparison between the customary fees and the cess proceeds.

No. 80. ORDER THEREON, 10th September 1875, No. 1,341.

Land Revenue, No. 3.

THE scheme for the revision of village establishments in the Trichengode Taluq of the Salem District, as drawn up by the Director of Revenue Settlement and supported by the Board, meets with the entire approval of the Government. Its introduction should be effected with the least possible delay, and the revision of the village establishments throughout the rest of the district on this model should be at once undertaken.

2. It is possible that experience may hereafter prove the present provision of Curnams and Monegars to be insufficient, but, if so, their number can be

augn nted and paid for from the surplus to credit, which should be kept as a reserve to meet this and other contingencies, such as fluctuations of income arising from adverse seasons.

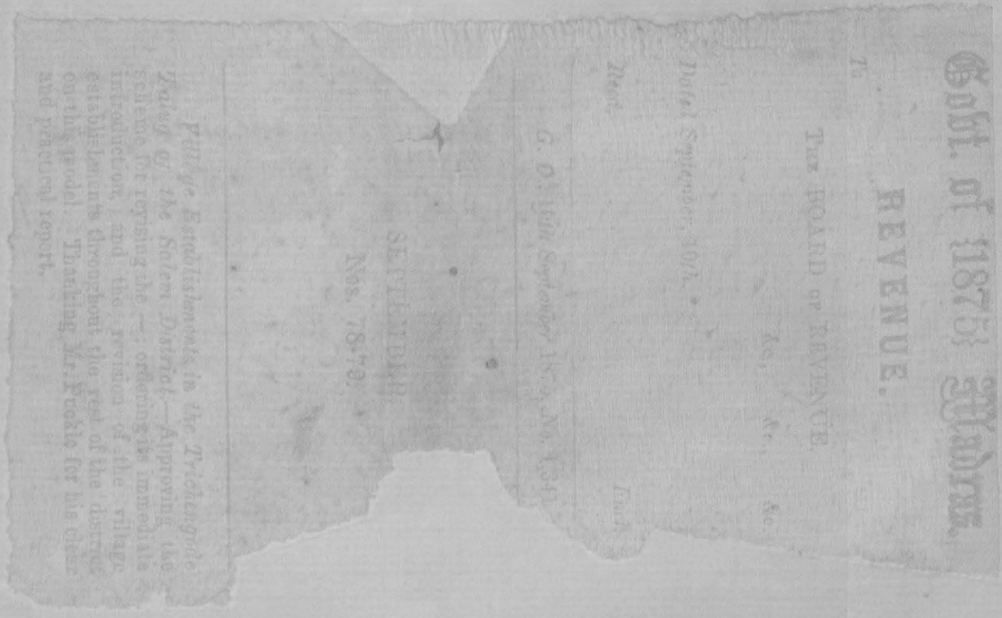

3. The thanks of Government are due to Mr. Puckle for his clear and practical report.

PROCEEDINGS OF THE BOARD OF REVENUE, dated 8th July 1875.

Read the following letter from R. K. PUCKLE, Esq., Acting Third Member of the Board of Revenue, in charge of the Settlement Department, to H. E. STOKES, Esq., Acting Secretary to the Board of Revenue, dated Coimbatore, 29th June 1875, No. 1,305-35 :—

I HAVE the honor to forward a scheme for the revision of the village establishment of a taluq of the Salem District called for in Government Proceedings, No. 391, dated 9th March 1875.

2. I am unable to report on Dharampuri as there is no map of the taluq, and the country is so wild and thinly inhabited that a scheme for this taluq would not apply to the richer taluqs of Salem. I have, therefore, selected Trichengode a fair average Talaghaut Taluq, proposals for which have been already submitted by the [illegible] Collector, Mr. Longley, and embodied in Board's Proceedings, No. 82, dated 21st January 1873.

3. The Trichengode Taluq comprises 104 villages with a present establishment (irrespective of Mr. Longley's grouping) of 131 curnams, 191 munsifs and monegars, 124 tandalgars, and 424 totis now paid, in money, Rupees 18,788 per annum.

4. The service-cess, at one anna per rupee of assessment, will yield Rs. 18,426. This, with the ready-money allowances now paid by Government, is more than sufficient to pay the establishment needed.

5. Mr. Longley merged the 104 villages into 64 groups for curnams, and into 85 groups for other classes of village servants. I have modified this arrangement by forming 82 groups for curnams only and allotting separate establishments of munsifs, taliaris, &c., to 102 of the 104 villages. Of the two that are unavoidably merged, Gidakaval is uninhabited and Agrahara Nattamangalam is virtually a hamlet of Circar Nattamangalam, and is too small to afford an establishment.

6. The Act provides for monegars as well as munsifs where needed, and in 38 large villages where one man cannot perform the onerous duties required, I have provided a monegar to relieve the munsif of part, at all events, of the work of collecting the revenue and to ensure the presence of an officer in the village during the frequent absence of the munsif at the Courts and Cutcherries. I think it very essential that wherever funds admit there should be a second officer.

7. To frame a scale of rates for the remuneration of village officers, I have taken the only village (Edanganasalei) that can just about pay a full establishment what might be adopted as maxima rates from its service-cess alone, thus—

	Rs.
One Curnam	10
One Munsif	7
One Monegar	5
Three Taliaris, each	3
Three Vettiyans, each	3

	Rs.	A.	P.
Total annual cost of proposed village establishment	480	0	0
Assets of service-cess	480	6	0

and, accepting this as a standard, I have apportioned the pay of establishment in each smaller village with reference to its aggregate assets (including service-cess and ready-money allowances), so that each village may be self-supporting and yet, in some cases, leave a small surplus from ready-money allowances to credit to the general fund.

8. In this taluq the revenue subordinates are styled tandalkars, and are usually men of caste; the Police subordinates are styled totis, and are invariably pariahs. I have here called the Police subordinates taliaris and the revenue subordinates vettiyans. Eight villages cannot afford a vettiyan, and in these the taliari must perform double duty.

Vettiyans can be hereafter appointed and paid from the general fund if required.

9. As the village that yields the largest amount of service-cess has been taken as the standard, and the establishment proposed for that village costs the full amount of the cess, the entire cess raised in each village is consequently spent on establishment, and there is no balance of service-cess to credit to any particular village. There is, however, an unappropriated balance of resumed ready-money allowances, amounting to Rupees 5,331-12-8, to be carried to the credit of the general fund. In villages where the cess and ready-money allowances combined are insufficient to pay an establishment, these assets have been supplemented from the general fund to the extent of Rupees 20-15-2.

10. As, on the principle here proposed, each taluq will be self-supporting and will have a surplus to credit to the general fund, the salaries of the lower-paid officers can be augmented or their number can be increased, and there will still be money to spend on the construction of village chavadies, the equipment of Police taliaris, &c., or it may be found possible eventually to reduce the cess from one anna to some lower figure per rupee of assessment.

11. Commencing from the north of the taluq, Pakanad, an unsurveyed village in an unhealthy locality, area 1,908 acres, population 877, revenue Rupees 1,398, has a curnam, a munsif, four taliaris, and two vettiyans at present. A curnam, a munsif, a taliari, and a vettiyan are all that this village can afford, as the cess is but Rupees 87-5-0 and the ready-money allowances Rupees 135-13-11; total assets Rupees 233-2-11.

This and the following village formed one group in Mr. Longley's proposals, but each can afford an establishment.

Calculating the rateable pay of these men with reference to the standard of Edanganasalei, the curnam, No. 1 in the accompanying map, should receive Rupees 8, the munsif Rupees 5, the taliari Rupees 3, and the vettiyan Rupees 3 per mensem; total Rupees 228 per annum.

12. Adayur, also an unsurveyed village, area 982 acres, population 614, revenue Rupees 1,707, has a curnam, a munsif, four taliaris, and a vettiyan at present. A curnam, a munsif, a taliari, and a vettiyan are all that this village can afford, as the cess is but Rupees 106-12-0 and the ready-money allowances Rupees 161-2-2; total Rupees 267-14-2. The curnam, No. 2 in the map, should receive Rupees 9, the munsif Rupees 7, the taliari Rupees 3, and the vettiyan Rupees 3 per mensem; total Rupees 264 per annum.

13. Avadatur, also an unsurveyed village, area 2,069 acres, population 2,388, revenue Rupees 2,959, has a curnam, a munsif, three taliaris, and two vettiyans at present. A curnam, a munsif, two taliaris, and two vettiyans are all that this village can afford, as the cess is but Rupees 194-15-0 and ready-money allowances Rupees 183-13-7; total Rupees 368-12-7. A curnam, No. 3 in the map, should receive Rupees 10, a munsif Rupees 7, two taliaris Rupees 3 each, and two vettiyans Rupees 3 each per mensem; total Rupees 348 per annum.

14. Irupæli, a surveyed village, area 3,846 acres, population 3,210, revenue Rupees 4,927, has a curnam, a munsif, six taliaris, and two vettiyans at present. This village, No. 4 in the map, can well afford a full establishment paid at maxima rates, *viz.*—

per mensem (total Rupees 480 per annum), as the cess is Rupees 307-14-0 and ready-money allowances Rupees 253-6-5; total Rupees 561-4-5.

15. Chittur, area 5,393 acres, population 3,714, revenue Rupees 6,794, has two curnams, a munsif, five taliaris, and four vettiyans at present. This village, No. 5 in the map, can afford a full establishment paid at maxima rates, *viz.*—

16. Settimankurichi, area 2,565 acres, population 2,309, revenue Rs. 3,615, has a curnam, a munsif, two taliaris, and three vettiyans at present. A curnam, a munsif, two taliaris, and two vettiyans are all that this village can afford, as the cess is but Rupees 225-14-0 and the ready-money allowances Rupees 178-15-10; total Rupees 304-13-10. A curnam, No. 6 in the map, should receive Rupees 7, a munsif Rupees 6, two taliaris Rupees 3 each, and two vettiyans Rupees 3 each per mensem; total Rupees 300 per annum.

17. Avaneperur Kilmugam, area 1,543 acres, population 1,019, revenue Rupees 3,664, has a half-share in a curnam, a half-share in three munsifs, a half-share in three taliaris, and a half-share in three vettiyans at present. A curnam, a munsif, a monegar, two taliaris, and two vettiyans are all that this village can afford, as the cess is but Rs. 229-8-0 and ready-money allowances Rupees 212-10-3; total Rupees 442-6-3. A curnam, No. 7 in the map, should receive Rupees 10, a munsif Rupees 7, a monegar Rupees 5, two taliaris Rupees 3 each, and two vettiyans Rupees 3 each per mensem, or Rupees 408 per annum.

This and the following village formed one group in Mr. Longley's proposals, but each can afford an establishment.

18. Avaniperur Melmugam, area 2,744 acres, population 2,161, revenue Rupees 5,809, has an establishment as above at present. This village, No. 8 in the map, can well afford a full establishment at maxima rates, *viz.*—

19. Vellirivalli, area 5,528 acres, population 3,034, revenue Rs. 5,960, has a curnam, two munsifs, seven taliaris, and two vettiyans at present. This village also, No. 9 in the map, can afford a full establishment paid at maxima rates, *viz.*—

20. Pulampatti, area 3,780 acres, population 1,844, revenue Rupees 4,504, has a curnam, a munsif, four taliaris, and a vettiyan at present. A curnam, a munsif, a monegar, two taliaris, and three vettiyans are all that this village can afford, as the cess is but Rupees 281-8-0 and ready-money allowances Rs. 192-9-1; total Rupees 474-1-1. 21. Mudalkalvai, area 1,452 acres, population 1,249, revenue Rs. 1,643, has a curnam, a munsif, five taliaris, and four vettiyans at present. A curnam, a munsif, a taliari, and a vettiyan are all that this village can afford, as the cess is but Rupees 102-11-0 and ready-money allowances Rupees 137-12-4; total Rupees 240-7-4. A curnam, No. 11 in the map, should receive Rupees 8, a munsif Rupees 6, a taliari Rupees 3, and a vettiyan Rupees 3 per mensem; total Rupees 240 per annum.

(Signed) R. K. PUCKLE,
Acting Third Member of the Board of Revenue,
in charge of the Settlement Department.

COIMBATORE,
29th June 1875.

Enclosure No. 2.—Map.

In this report the Acting Director of Revenue Settlement shows cause for selecting the Trichengode Taluq in preference to Darampuri as ordered in Government Proceedings, No. 391, dated 9th March 1875. Trichengode is, no doubt, a better average taluq, as the bulk of the villages can afford to maintain independent establishments, and several other taluqs of Salem District can be treated like Trichengode.

2. The results are satisfactory; the standard of pay and establishment has been fixed with reference to the assets of service-cess in the village paying the largest amount of cess in the taluq; and, taking this standard as a maximum, establishments have been allotted to 102 of the 104 villages of which the taluq is composed, varying in strength and emoluments with reference to the total assets of cess and existing allowances in each village.

3. The Acting Director of Revenue Settlement has worked out his proposals on the actuals of each village instead of taking one-ninth, or this taluq's share of the Rupees 1,20,000 allotted to the Salem District by Government, as the equivalent of the ready-money allowances now paid to village servants, and working on actual assets of course ensures greater accuracy.

4. The establishment proposed is liberal, and the large balance, amounting to Rupees 5,332, to credit of the general fund seems to indicate that the cess may be fairly reduced when each taluq is settled in this manner and the total balance to credit of the district is known.

5. The Board resolve to submit these proposals for the favorable consideration of Government in continuation of Board's Proceedings, No. 1,753, dated 22nd June 1875.

6. The present scheme is, in principle and in detail, exactly similar to that for Chingleput reviewed in the Proceedings just quoted. There have been no recognized village merahs in Salem since 1803, and therefore there can be no comparison between the customary fees and the cess proceeds.

Proceedings of the Board of Revenue

Letter, with remarks, letter from Dir: of Rev: Settlement forwarding a scheme for revision of village establishment of Trichinopoly Taluq. Salem Dt. } N. 2. 8. July 75 & 1888

The scheme for the revision of village establishments in the Trichinopoly Taluq of the Salem District, as drawn up by the Director of Revenue Settlement and supported by the Board, meets with the entire approval of the Govt

Lts

It's introduction should be effected with the least possible delay, and the revision of the village establishments throughout the rest of the district on this model should be at once undertaken

2. It is possible that experience may hereafter prove the present provision of Runners as Messengers to be insufficient, but if so, their number can be augmented and paid for from the surplus Credit which should be kept as a reserve to meet this and other contingencies such as fluctuations of income
