*Proceedings of the Madras Government, Revenue Department,
23rd September 1875.*

No. 200. Read the following Proceedings of the Board of Revenue, dated 2nd July 1875, No. 1,841:—

Read the following letter from R. K. PUCKLE, Esq., Acting Third Member of the Board of Revenue, in charge of the Settlement Department, to H. E. STOKES, Esq., Acting Secretary to the Board of Revenue, dated Salem, 17th June 1875, No. 1,156-33.

I HAVE the honor to furnish the report called for in paragraph 3 of Government Proceedings, No. 216, dated February 11th 1875.

2. The grazing lands referred to are not the wild jungle and hilly tracts of Oossoor, but the small patches of waste attached to individual holdings, and assessed with a grazing fee of one-third or one-fourth of the taram assessment up to the date of settlement. At settlement these lands were charged the full taram assessment, which amounts to Rupees 4,236 for 10,125 acres.

3. The average acreage charge was thus less than 8 Annas per acre, and had the taluq been treated leniently in other respects, there might have been no objection to this charge; but the assessment of Oossoor was raised by settlement, and when to this the full taram assessment of these private grazing grounds was added, the ryots had some reason for complaint.

4. I have consulted with the district officers as to the best method of affording relief, and have arrived at the conclusion that the entire area of these private grazing grounds should be registered in the lowest taram and granted on putta without restriction of any kind. This will afford relief to the extent of Rs. 1,705, and the lands being borne in the puttass will soon cease to be distinguished as allotments for any specified purpose. Some will no doubt be cultivated, but all are not fit for that purpose; but even should every acre be cultivated the cattle are not likely to suffer, as there are thousands of acres of public pasturage as yet unsurveyed and unassessed that can feed all the cattle of Oossoor.

5. The following comparative table shows the former, present, and proposed assessment of the private grazing grounds:—

Read the following

From

R. K. Pickle Esq

Esq 3rd Member, Rev. Board
in charge of the Settlement Department.

To
H. E. Stokes Esq
Acting Secretary to the
Board of Revenue Madras.

Sir

I have the honor to furnish
the report called for in para 3 of
Government Proceedings No 216
dated February 11th 1845.

2. The grazing lands refer-
red to are not the wild jungle in
and hilly tracts of Oopoor, but
the small patches of waste at-
tached to individual holdings
and assessed with a grazing

fee of $\frac{1}{3}$ or $\frac{1}{4}$ of the tarann afeef-
ment up to the date of settle-
ment. At settlement these
lands were charged the full tarann
assessment which amounts to Ru-
pees 4236 for 10,125 acres.

The average average charge
was thus less than 8 annas per
acre, and had the taling been
limited similarly in other respects
there might have been no objection
to this charge, but the assessment
of Osseer was raised by settle-
ment and when to this the full
tarann assessment of these private
grazing grounds was added
the ryots had some reason for com-
plaint.

I have consulted with the dis-
trict

This seems
to be a proposal
for a permanent
assessment of grazing
lands at the lowest
rate. After

district officers as to the best me-
thod of affording relief and have
arrived at the conclusion that the
entire area of these private gra-
zing grounds should be registered
in the lowest tarann and granted
on pattah without restriction of
any kind. This will afford relief
to the extent of Rupees 1705 and
the lands being borne in the pat-
tahs will soon cease to be dis-
tinguished as allotments for any
specified purpose. Some will no
doubt be cultivated; but all are
not fit for that purpose, but even
should every acre be cultivated
the cattle are not likely to
suffer as there are thousands of
acres
