No. 69. Read the following Proceedings of the Board of Revenue, dated 4th October 1875, No. 2,776 :—

Read the following letter from J. D. B. GRIBBLE, Esq., Acting Sub-Collector of Cuddapah, to H. E. STOKES, Esq., Acting Secretary to the Board of Revenue, dated Madanapully, 20th September 1875, No. 512.

I BEG to send by this post two copies of the Cuddapah District Manual.

2. The work is roughly bound in paper; but, if it meets with the approval of the Board and Government, will be bound uniform with Mr. Boswell's Manual.

Enclosure 2—*vide* separate Packet.

3. The maps which should accompany it are, I believe, in the Board's Office, and I beg that a copy of each may be sent with the book to Government. The district map will be mounted and placed in a pocket; the tank and river system maps will be bound up to face page 219, and the Poligar map to face page 133. The photograph will have the words Gurrunkonda Hill and Fort printed beneath it, and should be bound opposite page 91.

4. One mistake in the commencement of the work I have not been able to rectify as the copies had been struck off. In the description the term Seshachellum has been given to a range which the Board have ruled should be styled Palkonda. I have alluded to this mistake at page 271. As a matter of fact, the range is known by both names, so that I trust the mistake will not be considered a very bad one.

5. I also notice that the foot-notes on pages 42, 44, 46, 52, 54, and 61, have been retained by mistake. They referred to totals of area copied from the Census account which were evidently faulty. Whilst the book was passing through the Press, correct figures were obtained and the text was altered, so that now a pen should be passed through these notes.

6. There will, I fear, be found many other mistakes for which I beg to crave indulgence. The work was commenced soon after I joined the district, and has now occupied the leisure time of over two years. Had I to commence it now, I might, with a larger experience of the district, perhaps be able to write a better book. There is, however, I trust, nothing very wrong in it.

7. In conclusion, I beg that the Government will be pleased to allow me the number of copies which have been allowed to former compilers.

8. The Appendix was almost entirely printed before the form of Appendix lately circulated by Government was received. The information contained in my Appendix is uniform with that of Mr. Kelsall's, being a little fuller. Should, however, the Government decide that the new form is to be adhered to, I shall have to collect fresh materials and re-write the Appendix.

ENCLOSURES Nos. 1 and 2.—Books.

THE Manual of the Cuddapah District will be submitted to Government together with a copy of each of the maps which have been prepared to accompany it, and which will be inserted in the places indicated in paragraph 3 if the work is approved.

Proceedings of the Madras Government, Revenue Department,
5th November 1875.

2. The Board are of opinion that there is no necessity to recast the Statistical Tables in the Appendix, as they were completed before the revised forms recently prescribed were circulated, and the Manuals already published are not uniform. The proof-sheets were submitted for the Board's approval whilst the work was passing through the Press, and it may be accepted, although there are doubtless inaccuracies which have escaped the Board's notice.

3. The Board recommend that the usual honorarium be passed to Mr. Gribble, and that he be allowed twenty copies of the work as in the case of other compilers.
