*Proceedings of the Madras Government, Revenue Department,
22nd November 1875.*

No. 251. Read the following Proceedings of the Board of Revenue, dated 16th November 1875, No. 3,125.

Read the following letter from J. H. MASTER, Esq., Collector of Bellary, to H. E. STOKES, Esq., Acting Secretary to the Board of Revenue, dated 10th November 1875, No. 464 :—

I HAVE the honor, with reference to the Proceedings of the Board, No. 2,967, dated the 26th ultimo, to state that I have called upon the District Engineer to state what works are actually in hand.

2. I am myself about to visit the western part of the district, so I shall be able to report more fully after personal inspection.

3. In the meantime it is evident from the letter from the Deputy Collector of the Division (copy of which is herewith enclosed) that distress is alleviated for the present, but, as no wet cultivation is in progress or expected to be undertaken in those taluqs, I am afraid that eventually work will have to be found for the poorer classes till the next cultivation season comes round.

ENCLOSURE No. 1.

From V. VENKATACHELLUM PANTULU, Deputy Collector, to J. H. MASTER, Esq., Collector of Bellary, dated Hospett, 6th November 1875, No. 272.

WITH reference to my letter of the 20th August last, No. 204, reporting on the insufficiency of rain and cultivation in the taluqs of my division, I have the honor to report the present state of the taluqs, as some rain has fallen since my first report.

2. I beg to annex a memorandum showing the cultivation of land in the taluqs to the end of October 1875 :—

Taluqs.	Area cultivated up to the end of October 1874.	Area cultivated up to the end of October 1875.	Decrease.	Rain-fall in July, August, September and October 1874.	Rain-fall in July, August, September and October 1875.
	ACRES.	ACRES.	ACRES.	IN. OZ.	IN. OZ.
Hurpanhally	129,845	121,216	8,629	22 2½	9 2½
Hudgally	172,995	165,150	7,845	26 3	11 1½
Kudlighi	121,148	83,076	38,072	24 8½	15 1½

3. The marginal memorandum shows the rain that has fallen in the Cusbah stations of the taluqs during the last two months.

4. I beg to annex a memorandum showing the rate at which Jonna (Cholum) was sold at the end of October last year and this year :—

	1874.	1875.
	SEERS.	SEERS.
Hurpanhally... ..	48 0	18 0
Hudgally	35 0	19 20
Kudlighi	33 0	19 0

5. As rain has fallen at the end of October when the Jonna crop was ready to die for want of rain several fields of Jonna produced the grain, which has been the cause for grain being brought to the fairs, while it was difficult to get grain in the middle of the month. The fact of the rain of this year being one-half of that of last year shows that Jonna crop cannot be abundant for this year.

*Proceedings of the Madras Government, Revenue Department,
22nd November 1875.*

6. As tanks have received no water I think that there will be no wet crop in this year.

7. It is my humble opinion that poor coolies and poor ryots will have cultivation work, such as cutting Jonna produce, &c., for one month more, and that they will have no work afterwards as there is no paddy harvest this year, and that measures will have then to be taken to provide work for the poor men.

Distress in the Western Taluqs of the Bellary District.—Recording Proceedings of the Board of Revenue on the temporary alleviation of — and directing the Collector to keep the Board and Government regularly and fully informed of the state of the District.

No 272.

Surpankally Division
Deputy Collector's office
Koppett 6th November 1875.

From
F. Venkatachellum Pantulu
Deputy Collector
To
J. B. Macleod Esquire
Collector of Bellary

Sir,
With reference to my letter of the 20th August last, No 204, reporting on the insufficiency of rains and cultivation in the taluqs of my Division, I have the honour to report the present state of the Taluqs as some rain has fallen since my first report.

2. I beg to annex a Memo. shewing the cultivation of land in the Taluqs to the end of October 1875.

Taluqs	Area cultivated up to the end of —		Increase	Rainfall in July, August, September and October			
	October 1874	to the end of October 1875		October 1874	1875	—	—
	Acres			—	—	—	—
Surpankally	129845	121216	8629	22 — 2/4	9 —	2 1/2	
Nadgally	172995	165150	7845	26 — 3	11 —	1 1/2	
Koodlighi	121148	83076	38072	24 — 8 1/2	15 —	1 1/2	

The

3. The marginal memo, shews the rain that has fallen in the Kusba stations of the Sahaps during the last 2 months.

	Sept	Oct
Kurpambally.	2-9 ³ / ₄	1-4
Kudgally	4-1	2-6 ³ / ₄
Kudlighi	7-6	1-9 ¹ / ₂

4. I beg to annex a Memo, shewing the rate at which Jouna (chohun) was sold at the end of October last year and this year.

Kurpambally	1874 Rupees	1875 Rupees
Kudgally	48	18
Kudlighi	35	19-20
	33	19

5. As rain has fallen at the end of October when the Jouna crop was ready to die for want of rain, several fields of Jouna produced the grain, which has been the cause for grain being brought to the fairs, while it was difficult to get grain in the middle of the month. The fact of the rain of this year

year being one half of that of last year, shews that Jouna crop cannot be abundant for this year.

6. As banks have received no water, I think that there will be no wet crop in this year.

7. It is my humble opinion that poor coolies and poor ryots will have cultivation work, such as cutting Jouna, produce &c for one month more and that they will have no work afterwards as there is no paddy harvest this year, and that measures will have then to be taken to provide work for the poor men.

I have &c
