G.O. No. / B.P. No.	1676	Press / ~~Mis.~~
Dated	23-11-1875	196 .

Not to be folded or roughly handled

No. 257. Read the following Proceedings of the Board of Revenue, dated 3rd September 1875, No. 2,474 :—

Read the following letter from J. H. MASTER, Esq., Collector of Bellary, to H. E. STOKES, Esq., Acting Secretary to the Board of Revenue, dated 13th August 1875, No. 313.

In the Proceedings of the Board, No. 946, dated the 16th April last, the subject of the formation of a new division in this district was submitted to the Government, and orders were passed thereon in G. O., No. 713, dated the 12th May.

2. I have the honor now to forward copy of a letter received from the Deputy Collector of the Hurpunhully Division, in which he points out that, in consideration of the general unhealthiness of the climate of the three western taluqs,—Kudlighi, Hurpunhully, and Huvinhadgally,—it would have been better if Hospett had been allotted to him instead of one of the others, and that then he would have one healthy taluq to which to betake himself on emergency.

3. In making my proposals, I had certainly overlooked the fact of the unhealthiness of the western part of the district, and I can only attribute Vencatachellum Puntulu's long stay in this district to the fact of his being able to reside a part of the year at Hospett.

4. He deserves consideration, for he is a most hardworking and willing officer.

5. The revenue work of the Hospett Taluq was put temporarily under his charge as per Board's Proceedings, No. 2,920, dated the 13th July 1871, and this arrangement was continued till lately.

6. As regards the distance of Kudlighi and Hospett, respectively, from Bellary, there is not much difference. Hospett is 38 miles distant; Kudlighi, by the new road, which is being made through Sundoor, will be 45 miles distant. The latter will, therefore, be just as accessible to the Deputy Collector who resides at Bellary as the other.

7. There is some force, too, in the remarks made by Vencatachellum Puntulu as to the importance of supervising the Toongabudra Channels in Hospett. From the nature of his duties, it cannot be expected that Murugesam Mudeliar will be able frequently to be moving through his division. Vencatachellum Puntulu would, therefore, exercise a better check.

8. The difference as to area, population, &c., if the change were made, is not material.

9. I have the honor to enclose statements showing all particulars, and to recommend that, if possible, Hospett, Huvinhadgally, and Hurpunhully may be allowed to form the Hurpunhully Division, and Raidrug and Kudlighi that of the Bellary Deputy Collector.

Enclosure No. 1.

From V. VENKATACHELLUM PUNTULU, Deputy Collector of Hurpunhully Division, to J. H. MASTER, Esq., Collector of Bellary, dated Kumply, 9th June 1875, No. 145.

I have the honor to report that I have this day received the Proceedings of Government, dated 12th May 1875, No. 713, by which the proposal to form the taluqs of Hospett and Raidrug into a division for the second Deputy Collector was approved.

2. As the Hospett Taluq, which has been attached to my division since July 1871 (that is four years), will be taken from me, I respectfully beg to represent the circumstances under which it was given to me, and the inconvenience which causes to me and my successors in office.

3. When the taluqs of the Bellary District were formed into divisions, Ghooty and three* other taluqs were made the Deputy Collector's division, while Hospett, Hurpunhully, Huvinhadgally, and Kudlighi (four western taluqs) were made the Head Assistant Collector's division.

* Tadpatri, Aloor, Adoni.

4. As railway passed through the Deputy Collector's division (Ghooty Division), his division was given to the Head Assistant Collector (it was subsequently given to the Sub-Collector), and three taluqs† out of the four western taluqs of the Head Assistant Collector's division were formed into a division for the Deputy Collector.

† Hurpunhully, Huvinhadgally, Kudlighi.

5. The first Deputy Collector Iyalu Naidu Garu joined this new division, consisting the three taluqs of Hurpunhully, Hadgally, and Kudlighi in September 1868. As these taluqs were not healthy, he applied for a change, and obtained the appointment of Deputy Collector in North Arcot, and left it in December 1868. Mr. Clogstoun, Assistant Collector, was in charge of the division in January and February 1869. Murugesam Mudeliar Garu was appointed to this division in March 1869, and left it in May, L. Venkatappiah Garu having relieved him. Venkatappiah Garu, who was one year in this division, having applied for a change, he was appointed to Godavery, and I was appointed to this division, which I took charge at the end of May 1870.

6. For few months after I took charge, I was sick, and was absent from my division for three months in 1871, and returned to my duties in May 1871. As I represented to you the unhealthy state of these taluqs, you were pleased to add Hospett Taluq to my division in July 1871. My establishment consists of four Clerks, one Attender, and three Peons; of these, one or two were always on sick leave until Hospett Taluq was given to me. As this taluq is a healthy one, I have been coming and staying here since these four years whenever I feel unwell by staying in the other three taluqs.

7. I beg to state that the fact of these taluqs being unhealthy ones was reported to the Board of Revenue. Mr. Sullivan, Collector, stated in his letter of 25th May 1869 that "Hurpunhully is especially disliked by natives on account of its unhealthiness during a portion of the year." In your letter of 8th August 1870, No. 277, you reported that these "three taluqs are notoriously feverish."

8. I take this opportunity of reporting the present state of the taluq establishment of these taluqs.

HURPUNHULLY.—The Sheristadar of this taluq has been absent on sick leave for seven months, and lately resumed his duties. One Gumastah (Vasudava Row) is now on sick leave since more than two months. The Tahsildar has been suffering with fever since three months, but is doing business.

HADGALLY.—The Tahsildar has been unwell for some days, and is now doing well. Two Gumastahs are now on sick leave.

KUDLIGHI.—The Sheristadar has been unwell since some months, and at last left the station on leave one month ago. One Gumastah and the Dufterbund are now absent on sick leave.

9. I trust that it will be apparent that I have been able to be in charge of this division since five years, as you have given me an opportunity of coming and staying at times in the salubrious climate of Hospett without applying for a change to other districts. I need not mention whether it is advantageous or not for a Divisional Officer to stay for long period in charge of a division.

10. If these three unhealthy taluqs be the division, I am sure that the Deputy Collector, who may be in charge of it, will not be able to stay for long time, and will be compelled to apply for change, as he will be sick in few months.

Proceedings of the Madras Government, Revenue Department,
23rd November 1875.

11. When the Deputy Collector was at Ghooty he had four taluqs; now I have four taluqs (including Hospett) under me. You are well aware from the reports of work and from the receipt of immediate answers from me to all of your orders, memorandums, &c., that there is no arrears of any kind, either Revenue or Magisterial in my Office, and that the late order, which invested all the Sub-Magistrates with the second-class powers, has reduced the Magisterial cases, and that I have no sufficient work.

12. In the event of your finding that my work is not behind that of the Head Assistant Collector who has four taluqs, I trust that four taluqs may be allowed to form one division, as they form one range for the Department of Public Works, and as they are under one District Munsif's Court.

13. I think that the second Deputy Collector, having the charge of Raidrug Taluq and the Magisterial authority over the Bellary Town, has sufficient work on account of the great number of town cases. He has been doing the same work since these two years, besides very few cases cognizable by the 1st-class Magistrate of Hospett.

14. If you have determined to give him another taluq, I beg that you will be pleased to recommend that Kudlighi Taluq may be made over to him instead of Hospett, as Kudlighi is an adjacent taluq to Raidrug, which has been under him. As the head-quarters of the second Deputy Collector is at Bellary, it is the same for him whether Hospett or Kudlighi is under him.

15. Mr. Sullivan, Collector, having in his letter, dated 25th May 1869, written from Hospett, stated that "Hospett, from the number of irrigation channels from the Toongabudra which traverse it, is by far the most important of the western taluqs, and has been in consequence for many years the head-quarters of a Divisional Officer, and that he is of opinion that this arrangement should be revived, and that the Collector, in whose charge the taluq is at present, can only visit occasionally, and that a recent inspection of the channels convinced him that an officer of higher standing than a Tahsildar should be stationed there, both in view to the channels being maintained in a proper state of efficiency and to the prompt disposal of disputes about water which so constantly arise in irrigated tracts;" I trust that you will consider that it is advantageous for the taluq being under a Deputy Collector who can often move through the taluq and see the channels, &c.

16. You are aware of the correspondence that passed in the last two years between the Revenue Department and Department of Public Works regarding the repairs of Toongabudra Channels.

17. I beg to be understood that I am not advocating to remove my head-quarters from Hurpunhully to Hospett, as the Board have remarked that it is not a central place.

(True Copy.)

(Signed) J. H. MASTER,
Collector.

ENCLOSURES Nos. 2 to 5.—Statements.

SUBMITTED to Government with reference to G. O., dated 12th May 1875, No. 713.

2. In that order Government sanctioned the formation of the Hospett and Raidrug Taluqs into a division for the second General Deputy Collector in Bellary. The Collector now proposes to alter this arrangement by transferring the Hospett Taluq to the first Deputy Collector, and assigning Kudlighi in lieu to the second Deputy. The change is proposed in order that the Western Division may comprise one healthy taluq in which the Deputy Collector can reside for a portion of the year.

3. The three western taluqs form a division more compact geographically and more symmetrical on paper; but the Collector shows that there is not much difference between the accessibility of Hospett and Kudlighi from Bellary, the head-quarters of the second Deputy; and the proposed change will place the whole of the Toongabudra Channels under one officer, which is an advantage. The figures as to area, &c., are given in the margin.

—	Area.	Population.	Revenue.
1st Division.			Rs.
Original	2,079	269,953	4,26,590
As proposed ...	1,755	268,131	5,35,888
2nd Division.			
Original	1,430	179,894	4,12,398
As proposed ...	1,754	181,716	3,03,000

4. The Board think that it is very desirable that the western division should include one healthy taluq, and think that Venkatachellum Puntulu deserves every consideration. As the proposed change is otherwise not unsuitable, they recommend it for the sanction of Government.

Hospett and Raidrug Taluqs—forming the division of the second General Deputy Collector of Bellary District.—Collector's proposal to transfer, for certain reasons, the former taluq to the first Deputy Collector and to assign Kudlighi in lieu to the second Deputy, recommended for sanction of Government.
