*Proceedings of the Madras Government, Revenue Department,
25th November 1875.*

No. 289. Read the following Proceedings of the Board of Revenue, dated 8th November 1875, No. 3,137:—

Read the following letter from G. D. LEMAN, Esq., Collector of the Kistna District, to H. E. STOKES, Esq., Acting Secretary to the Board of Revenue, dated Masulipatam, 23rd October 1875, No. 1,404:—

With reference to Board's Miscellaneous Proceedings, No. 3,835, dated 5th May 1875, I have the honor to submit the report upon Pedda Kuncherla Tank, in Venukondah Taluq, called for by Government in their order, No. 1,085, dated 17th April 1875, Public Works Department.

2. The General Deputy Collector reports that the excavation of the irrigation channel of the tank was completed early in September 1874. Though the ryots were requested to dig field channels and to utilise the water of the tank, they were prevented from doing so as they had already cultivated almost all their lands with dry crops, and as they were afraid that a wet crop raised so late in the season would not sufficiently pay them.

3. The Deputy Collector and the Tahsildar have both spoken with the villagers, who have agreed to cultivate 272 acres this year. The Deputy Collector thinks that they may, on the whole, cultivate 200 acres this year, which they promise to do after the standing Sujja crop is reaped; but at present only 28 acres have been planted.

4. The lands under the tank are considered very fertile, and there seems to have been a fear lest they should become saline if irrigated, and so become unfit for cultivation.

5. The Deputy Collector thinks that the extent of acres 719.32, which the ryots originally agreed to convert into wet, will be cultivated in the course of a couple of years, that every acre of land which can be irrigated will eventually be utilised for wet cultivation, and that, in a few years, the tank will prove a boon both to the people and to the Government.

SUBMITTED to Government with reference to G. O., 17th April 1875, No. 1,085, Public Works Department.

(A true Copy and Extract.)

(Signed) H. E. STOKES,
Acting Secretary.

No. 290. ORDER THEREON 25th November 1875, No. 1,692.

Irrigation, No. 8.

COMMUNICATED to the Public Works
Department.
