To J. R. Bockerell Esq.

Commissions - Kelgiris

Sir Notice by the Kelgherry Comrs
that Kingopah Row has been granted
100 acres of land to make good the
deficiency in the block of land knocked
down when at the sale which took
place on 19th February 1844

That sale, was, as you may
remember, largely attended by
European planters and the bidding
very brisk notwithstanding your
declaration that the survey was
incomplete and the actual
area unknown, and that what-
-ever ~~that~~ might be afterwards found
to be, no remission would be
made except in the quit rent.
Y

If it had been understood at the sale that the deficiency between the estimated and actual quantity of land would be made good, which is much the same thing as a remission of the purchase money - the opportunity would have been given to myself and others competing, to weigh the advantage of bidding higher for land, which from its greater quantity might form a more valuable property.

I have, therefore, the honor to request you will be so good as to bring the facts of the case to the notice of the Board of Revenue, as so material an alteration in the terms of the sale, after it has
taken

1740/2
taken place must justly excite surprise and may produce a want of confidence at future sales, unless gentlemen of my class stoop to practice artifices which ^{is} foreign to our habits.

I may here mention that my own bid was as high as Rs 25000. although I had inspected the land and did not consider it to exceed 70 acres and it will hardly be supposed that I was the only person who acted with such caution.
