*Proceedings of the Madras Government, Public Works Department,
20th January 1875.*

Read the following Proceedings of the Madras Government in the Revenue Department, dated 23rd October 1874, No. 1,360:—

ABSTRACT.—*Revised Rules for the distribution of water from the Irrigation and Canal Company's Canal, Kurnool District.*—Observing that the last clause of Rule XIII. sufficiently provides for registering instances of cultivation without application; approving the revised classification of crops under Clauses 1 to 4 of Rule VI.; preferring the adoption of the rate of 1 Rupee per 1,440 cubic yards for water supplied to tanks for purposes of irrigation, but calling for the opinion of Colonel Mullins and Mr. Latham before deciding on the subject; and cancelling paragraph 1 of G.O., 25th August 1874, No. 1,079, thereby leaving Rule XV. intact pending trial.

ORDER THEREON, 20th January 1875, No. 140.

COMMUNICATED to the Chief Engineer for Irrigation. It is observed that the subject of the charge to be made for the supply of Government tanks from the Madras Irrigation and Canal Company's Canal has been disposed of in G.O., No. 50, dated 8th January 1875.

ABSTRACT.—*Rules for the distribution of water from the Madras Irrigation and Canal Company's Canal, Kurnool District.*—Accepting Mr. Latham's proposal that retrospective effect be given to the note to Clause 1 of Rule VI. of the — so that fields cultivated for the first time in 1872 may be charged 5 Rupees an acre this year, and those cultivated for the first time in 1873 Rupees 4.

COMMUNICATED to the Chief Engineer for Irrigation.

2. In paragraph 9 of G.O., Revenue Department, 3rd July 1874, No. 830, the Government desired that the subject of introducing lower water rates generally, as recommended by the Board of Revenue and considered desirable by Government, should be brought under the consideration of the Board of Directors of the Company, and the Chief Engineer and Manager, Madras Irrigation and Canal Company, will be requested to obtain and transmit, as early as may be possible, the views of his Directors upon this question.
