expenditure superfluous

Under the circumstances
I don't see
why we should spend
£2350 on a current
passage. Johnson
thinks the proposal originated
with the Rev. Mr. B.

There is no probability
of funds being available
for the Rev. Mr. B. for some
time to come. LK

Madras.

Sir In reply to Board's Miscellaneous
No: 5072 dated 8th June 1875
forwarding for remark Government
Order dated 4th May 1875 No: 1249
Public Works Department regarding
an estimate for constructing the
old and new cutcherries by a
covered way. I have the honor
to state that the length of the
passage

passage provided for in the estimate cannot be shortened as the whole of the interval (173 feet) between the two cutcherries is covered with large Baobab trees which it is not thought desirable to remove. The proposed passage lies between two rows of these trees and does not render any cutting necessary
