11th June 1875. I have the honor to state that the District Engineer informs me that the tank at Gootloor in the Dharmaveram Taluq was not enlarged but merely restored.

2. The Board in their Proceedings No 6042 dated 4th November 1861 recommended the restoration of the tank and in G O No 2907 dated 5th October 1863. P. W. D communicated by the Revenue Board with their Endorsement No 1589 dated 9th Idem, an estimate of Rs 39,000 was sanctioned for the work, which was commenced in 1867-68

Bellary collectors office 6th July 1875

I have &c
(Signed) J. H. Master
Collector,

The claim for compensation will be submitted for the orders of Government

2. The Board are of opinion that the compensation must be granted, although the tank by the restoration of which the loss is stated to have been rendered unprofitable was merely restored and not newly constructed since the tank was breached upwards of 80 years ago and remained so from that date upto 1867-68. The exact date on which the loss was occasioned could not be ascertained but it is clear that that the restoration of the tank has rendered the loss liable to submersion which it had not been for upwards of 50 years.

3. The amount of Compensation Viz. Rupees 185 will have to be met from

IV

from the Irrigation Budget.
