Proceedings of the Madras Government, Judicial Department,
9th September 1875.

Cutcherries.

No. 76. Read the following Proceedings of the Board of Revenue, dated 13th August 1874:—

Read Proceedings of the Madras Government, Judicial Department, dated 16th July 1874, No. 1297, disapproving the design of building proposed for an "Office" for the Senior Assistant Collector of the District of Ganjam stationed at Berhampore, and issuing orders for Standard Plans being prepared in keeping with the designs recently introduced of Taluq Cutcherries and District Munsifs' Courts.

The Board observe that a plan was sanctioned for offices of Head Assistant Collectors and Deputy Collectors in G.O., 19th November 1870, No. 1807, and one for offices of Sub-Collectors in G.O., 11th July 187[illegible] No. 1666. A plan for Collectors' Cutcherries has been submitted to the Board by the Government Architect, and certain Collectors have been asked to report on it in Board's Proceedings, 28th March 1874, No. 712. The Board understand Government to mean that all these buildings are to be in the same style as that approved for Taluq Cutcherries.

(A true Extract.)

(Signed) J. GROSE,
Secretary.

No. 77. ORDER THEREON, 9th September 1875, No. 1976.

When the Order of Government, dated the 16th July 1874, No. 1297, was issued in the Judicial Department, it was not known that designs for Sub-Collectors' and Head Assistant Collectors' Cutcherries had been approved of in the Revenue and Public Works Departments, respectively.

2. The design for Sub-Collectors' Cutcherry, which is in keeping with the design adopted for Taluq Cutcherries, is approved, but having regard to expense His Excellency in Council is of opinion that the room assigned for witnesses may be better utilized as a Record-room, and the Record-room at the back of the building abandoned.

3. Accommodation for witnesses will be provided by a substantial tiled shed in two compartments, built apart from the Cutcherries. This will meet the requirements of Native witnesses infinitely better than a room in the main building close to the Magistrate, as shown in the plan. European witnesses seldom come before Magistrates up-country. When they do, they will find accommodation in the Magistrate's Private room, or elsewhere, as may be most convenient.

4. The design for the Head Assistant Collectors' Cutcherry may, His Excellency in Council is of opinion, be modified in accordance with that of the Sub-Collector's Cutcherry.

5. Verandahs all round a Cutcherry are obviously very desirable, in the climate of India.
