MADRAS RECORD OFFICE

GOVERNMENT OF MADRAS

Revenue DEPARTMENT

G.O. No.	2090.	Press
B.P. No.		Mis.
Dated	7-10-1875	196

Not to be folded or roughly handled

Proceedings of the Madras Government, Public Works Department,
22nd September 1875.

Read the following:—

No. 1,071.

No. 527.

Note by the Chief Engineer for Irrigation.

No. 2,246, 3rd September.

The following estimates have been submitted by the Superintending Engineer, Chingleput:—

	Rs.
Muversasambedu Tank—Repairs	645
Minor New	175
Total	820
Ayacut area	Acres 76
assessment	Rs. 195
Average revenue	194
Highest do.	222

This tank is in the middle of a group receiving the surplus of tanks above and surplus-
ing into others below, and either estimates for the whole group should have been
submitted together, or the circumstances of the other tanks should have been stated
and an illustrative sketch should have been sent in.

2. The catchment basin above the Muversasambedu tank is reported to be $1\frac{1}{2}$
square miles. It has no surplus work of any kind, and it is proposed to construct an
escape of rubble masonry 73 feet long at our end of the bund; the appropriateness of
the design depends upon the nature of the soil, which is described as fairly good.
The bund of so petty a tank need not be more than 2 feet above M. W. L. which is to
be 2 feet above F. T. L.

OOTACAMUND,
17th September 1875.

(Signed) JOHN MULLINS, Lieut.-Colonel, R.E.,
Chief Engineer for Irrigation.

No. 528.

ORDER THEREON, 22nd September 1875, No. 2,748.

IRRIGATION, No. 48-B.

Account.

The following estimates are sanctioned:—

Chingleput District.

Muversasambedu Tank

Revenue.
Rs.

Capital.
Rs.

645 175

2. It should not have been necessary
the Superintending Engineer that individ-
treated apart from the other members of th

er the instructions given to point out to
tanks of a group cannot be effectively
oup.
