IRRIGATION, No. 9.

COMMUNICATED to the District Engineer, Vizagapatam.

2. The out-door work to be done in connection with the Kondakirla Ava Project, is to be noticed, appertains to three distinct sub-divisions.

I.—The Kristamraz channel, which supplies the Ava and certain branch channels. The surveys and levels of this have been completed.

II.—The Ava itself. If the information regarding this, detailed in paragraph 16-4th of the memorandum communicated in Proceedings, Madras Government, 12th December 1873, No. 2,994, has not been obtained and put on paper, the District Engineer will explain why this has not been done.

III.—The existing and proposed irrigation under the Ava. This sub-division was the last to be taken up, and indeed the scope of the arrangements is dependent upon the settlement of the main issue, the rights of Government in connection with the Ava itself.
