MADRAS RECORD OFFICE

GOVERNMENT OF MADRAS

Revenue DEPARTMENT

G.O. No.	2661	Press
B.P. No.		Misc.
Dated 19 2.1875		196

Not to be folded or roughly handled

*Proceedings of the Madras Government, Revenue Department,
19th February 1875.*

No. 230. Read the following Proceedings of the Board of Revenue, dated 28th January 1875, No. 185:—

Read the following letter from C. T. LONGLEY, Esq., Collector of Salem, to J. GROSE, Esq., Secretary to the Board of Revenue, dated 5th December 1874, No. 454:—

With reference to the correspondence marginally noted, I have the honor to submit, for the orders of the Board, an

G. O., dated 3rd October 1872, No. 1,373.
Board's Proceedings, dated 16th October 1874, No. 3,005.
Collector's endorsement on Sub-Collector's letter, dated 31st October 1874, No. 725, recorded in Board's Proceedings, dated 3rd December 1874, No. 3,499.

extract from the Proceedings of the Chief Commissioner of Mysore, dated 28th September 1874, No. 4,653, as well as a copy of a letter addressed by the Acting Sub-Collector to the Deputy Commissioner of Bangalore.

2. It was originally proposed to construct stone-pillars to mark off the boundary between the Mysore Territory and this district, but it is now recommended that a line of trees should be planted (in addition to the stones) along the track which forms the boundary line. If the Board approve of the proposal, I request that the necessary sanction may be obtained for incurring the expenditure.

ENCLOSURE No. 1.

Extract from the Proceedings of the Chief Commissioner of Mysore, Political Department, 28th September 1874.

From the Commissioner of the Nundidroog Division, to the Officiating Secretary to the Chief Commissioner of Mysore, General Department, Political No. 2, dated Bangalore, 15th September 1874.

4. Major Clarke states that, in addition to the boundary marks of large stone-slabs, it is proposed to plant a line of trees in the track which forms the boundary line; and, as he suggests that the work should be carried out conjointly, I trust that the Chief Commissioner will permit me to say that this Government will share the expense.

From the Deputy Commissioner of the Bangalore District, to the Commissioner of the Nundidroog Division, No. 592, dated Bangalore, 4th September 1874.

4. In addition to these stone-pillars, it is proposed to plant a line of trees on both sides of the track which forms the boundary line throughout the open part of the country, and we found that, in a desultory way, something had been done in this respect. As usual, however, the villagers on the Mysore side had been called upon to furnish their gratuitous labor for the work, and cuttings had been put down and left to their fate. On the Salem side, where it is impracticable to impress labor, the work done is at present inconsiderable; but the Sub-Collector proposes, I understand, to solicit a grant from Government for the purpose. In order to economize the labor (for if the trees be planted alternately at fifty feet intervals on either side, the total number to be planted would be reduced), I would beg to suggest that the work should be carried out conjointly by an establishment to be specially entertained for the purpose. I have learnt from the Sub-Collector that he is prepared to make a recommendation to the Madras Government to this effect, and, if permitted, I will submit definite proposals in concert with him.

Proceedings of the Madras Government, Revenue Department,
19th February 1875.

Order thereon, No. 4,653, Political 1, dated Bangalore, 28th September 1874.

In the foregoing letter, the Commissioner reports the final settlement of boundary disputes between the Salem District of the Madras Presidency and the Bangalore and Kolar Districts of Mysore.

2. The Chief Commissioner observes that the questions at issue in connection with these disputes have been very satisfactorily disposed of, and so far as the Mysore Government is concerned, Sir Richard Meade is pleased to approve of the decisions arrived at in the matter by Major Clarke and Mr. Krishniengar in consultation with the Acting Sub-Collector of Salem.

3. The Commissioner's proposal in paragraph 4 of his letter as regards the charge for planting a line of trees along the boundary line is sanctioned.

(Signed) H. WELLESLEY,
Officiating Secretary.

To the Commissioner of the Nundidroog Division,
the Deputy Accountant-General in Mysore.

Political Circular No. 380.

COPY of the foregoing is forwarded to the Deputy Commissioner of the Bangalore District for guidance, with reference to his letter, No 592, of 4th September 1874.

2. The planting of trees in the track which forms the boundary line should be put in hand as soon as possible in communication with the Sub-Collector.

BANGALORE,
6th October 1874.

Deputy Collector,
for Collector.

ENCLOSURE No. 2.

From F. WILKINSON, Esq., Acting Sub-Collector of Salem, to Major T. CLARKE, Deputy Commissioner of Bangalore, dated Oosoor, 1st December 1874, No. 783.

With reference to your docket, No. 718, dated 9th November last, I have the honor to submit the following proposals for planting the boundary line between Salem and Mysore for any observations you may have to offer.

2. The number of miles to be planted, excluding the jungly and inaccessible portions, may be set down as 100.

3. I would first of all start five nurseries at suitable spots for the rearing of plants, such as Tamarind, Jack, Ilupa, etc.

4. One Gardener for each nursery and one Maistry to superintend the whole would be Rupees 4 per mensem, and of a Maistry Rupees 15 per mensem. The total cost the first year would be—

	RS.
Establishment	420
Tools and Plant	42
Sundries	38 or Rupees 500.

Proceedings of the Madras Government, Revenue Department,
19th February 1875.

5. When the plants were ready for planting out, one cooly per mile would be required and two Maistries or Superintendents. The yearly cost would then be—

	RS.
100 Coolies at 4 Rupees	4,800
Two Maistries at Rupees 15	360
Tools and Plant at $\frac{1}{2}$ per cent	240

Making a total of ... 5,400

This establishment would be required for two years at least and probably for more, say for three years.

6. In the fourth year, I would cut down the establishment by one-half, allowing one cooly for two miles and one Superintendent or Maistry. The yearly expenditure would then be Rupees 2,700. This I would maintain for two years and then do away with the establishment altogether, making the villagers responsible.

7. The total cost would thus be as under—

	RS.		RS.
1st year	500	4th year	2,700
2nd ,, ...	5,400	5th ,, ...	2,700
3rd ,, ...	5,400		

or Rupees 16,700. The amount to be paid by the respective Governments would be Rupees 8,350.

8. By this time some of the trees would have become productive. These would be leased out, and, in the course of years, the total expenditure would doubtless be realized.

9. I think it would be well if the planting operations were undertaken *in toto*, either by the Salem or by the Mysore authorities and not partly by one and partly by the other.

(True Copy.)

(Signed) T. PRITCHARD,
Deputy-Collector,
for Collector

SUBMITTED for the orders of Government.

2. The boundary line between Salem and Mysore has been inspected and settled so far as the local officers are concerned, and is now being surveyed (*vide* Board's Proceedings disposed of in G. O., dated 8th December 1874, No. 1,518).

3. It appears that a proposal has been made to plant trees in the track, which, excluding jungly and inaccessible parts, is 100 miles long. The trees are to be in addition to the ordinary boundary marks, viz., large stone-slabs. The Mysore Government are prepared to bear half the cost, which is estimated at Rupees 16,700 spread over five years.

4. The Board doubt whether the advantage of having trees as well as stone boundary-marks is worth Rupees 8,350; but, as the Mysore Government are in favor of the proposal, it may be desirable to allow it.

(True Copies and Extract.)

(Signed) H. E. STOKES,
Acting Secretary.

PROCEEDINGS OF THE BOARD OF REVENUE, dated 28th January 1875.

the following letter from C. T. LONGLEY, Esq., Collector of Salem, to J. GROSE, Esq., Secretary to the Board of Revenue, dated 5th December 1874, No. 454:—

WITH reference to the correspondence marginally noted, I have the honor to submit, for the orders of the Board, an extract from the Proceedings of the Chief Commissioner of Mysore, dated 28th September 1874, No. 4,653, as well as a copy of a letter addressed by the Acting Sub-Collector to the Deputy-Commissioner of Bangalore.

2. It was originally proposed to construct stone-pillars to mark off the boundary between the Mysore Territory and this district, but it is now recommended that a line of trees should be planted (in addition to the stones) along the which forms the boundary line. If the Board approve of the proposal, I trust that the necessary sanction may be obtained for incurring the expenditure.

ENCLOSURE No. 1.

Extract from the Proceedings of the Chief Commissioner of Mysore, Political Department, 28th September 1874.

the Commissioner of the Nundidroog Division, to the Officiating Secretary to the Chief Commissioner of Mysore, General Department, Political No. 2, dated Bangalore, 15th September 1874.

Major Clarke states that, in addition to the boundary marks of large stone slabs, it is proposed to plant a line of trees in the track which forms the boundary line; and, as he suggests the work should be carried out conjointly, I trust that the Chief Commissioner will permit that this Government will share the expense.

the Deputy-Commissioner of the Bangalore District, to the Commissioner of the Nundidroog Division, No. 592, dated Bangalore, 4th September 1874.

In addition to these stone-pillars, it is proposed to plant a line of trees on both sides of the track which forms the boundary line throughout the open part of the country, and we found a desultory way, something had been done in this respect. As usual, however, the villagers Mysore side had been called upon to furnish their gratuitous labor for the work, and had been put down and left to their fate. On the Salem side, where it is impracticable to employ labor, the work done is at present inconsiderable; but the Sub-Collector proposes, I trust, to solicit a grant from Government for the purpose. In order to economize the labor the trees be planted alternately at fifty feet intervals on either side, the total number to be

planted would be reduced, I would beg to suggest that the work should be carried out conjointly by an establishment to be specially entertained for the purpose. I have learnt from the Sub-Collector that he is prepared to make a recommendation to the Madras Government to this effect, and, if permitted, I will submit definite proposals in concert with him.

Order thereon, No. 4,653, Political 1, dated Bangalore, 28th September 1874.

In the foregoing letter, the Commissioner reports the final settlement of boundary disputes between the Salem District of the Madras Presidency and the Bangalore and Kolar Districts of Mysore.

2. The Chief Commissioner observes that the questions at issue in connection with these disputes have been very satisfactorily disposed of, and so far as the Mysore Government is concerned, Sir Richard Meade is pleased to approve of the decisions arrived at in the matter by Major Clarke and Mr. Krishniengar in consultation with the Acting Sub-Collector of Salem.

3. The Commissioner's proposal in paragraph 4 of his letter as regards the charge for planting a line of trees along the boundary line is sanctioned.
