PROCEEDINGS OF THE BOARD OF REVENUE, dated 22nd February 1875.

Read the following letter from A. McC. WEBSTER, Esq., Acting Collector of South Canara, to J. GROSE, Esq., Secretary to the Board of Revenue, dated Mangalore, 21st January 1875, No. 127. —

With reference to Standing Circular Order of Board, No. 28 of 1874, prescribing the course to be followed in granting rewards for the destruction of wild beasts, I have the honor to refer the Board to my letter of 17th April 1871, No. 498, recorded in Board's Proceedings of 2nd June 1871, No. 2242, and to request that the practice in this district of granting rewards by Tahsildars immediately on the skin being presented may be allowed to continue.

2. It received the special sanction of Government in their orders of 20th July 1867, No. 878, Public Department, and my report above alluded to was submitted to the Board with reference to paragraph 2 of their Proceedings of 2nd March 1871, No. 926, on which the present revised Standing Circular has been based.

On reconsideration the Board are of opinion that the practice which obtains in the district of South Canara, under the authority of G. O., 20th July 1867, No. 878, of permitting Tahsildars to grant rewards within the sanctioned maximum rates for the destruction of wild beasts, and to disburse them immediately on application, should be extended to all districts.

3. This course was suggested in G. O. of the 21st January 1871, No. 155, the Government remarking that Tahsildars may be trusted to perform the duty with discretion, and to guard against abuse of the rates.

8. Accordingly the Board resolve to authorize all Tahsildars to disburse such rewards on production of the head and skin of the animal slain, a report on each case being submitted to the Divisional Officer, and the skins being forwarded to the Treasury (where they will be marked, so that they cannot be used again) as vouchers for the payments made.

4. Standing Order No. XXVIII. of 1874 will be modified accordingly.

(A true Copy and Extract.)

Acting Sub-Secretary.

To all Collectors.

Copy to the Acting Secretary to Government, Revenue Department.

Summary—For the determination of water-soluble carbohydrates, and organic acids, in tissues, a method of measuring radioactivity from the oxidation of the carbohydrate and then of the amino acid, in a special apparatus described in this communication, is described. The method is applicable to the determination of water-soluble carbohydrates in the tissues of man and animals. It is possible to determine the concentration of water-soluble carbohydrates in the tissues of man and animals, and to determine the concentration of water-soluble carbohydrates in the tissues of man and animals, and to determine the concentration of water-soluble carbohydrates in the tissues of man and animals.
