Governments equal rights and immuniti
providing the whole line with a continuit

From J. M. R. SCOTT, Esq., Secretary, London
to the Under-Secretary of State fo

I AM instructed by the Directors of this Co
tion for the favor of the early consideration and
Secretary of State,

To facilitate this, I am desired to mention that, by a letter from the Under Secretary of
State to me, dated 3rd October 1873, he informed me that Her Majesty's (then Secretary of State
for India had resolved to sanction the proposition of Indian Government for the construction,
as part and parcel of the amalgamated undertakings of the Great Southern and Carnatic Railway
Companies (now South Indian Railway Company), of a position on British territory of a Railway
from the Carnatic Main Line to Pondicherry, leaving to be made (the Pondicherry Railway Company)
to make terms with the French Government for the con- tion of the line within French territory,
and that by another letter, dated 31st October 1873, e Under Secretary of State informed me
that the Great Southern and Carnatic Companies ha the Secretary of State consented to this arrangemen ceed to the above proposition, and that
doubt that the line would be extended to Pondicherry ditionally on its being ascertained beyond

The approval of Her Majesty's Government was finally conveyed to the Government of India
by a Despatch, dated 6th November 1873, No. 141 R.

Since that period, the Board of Directors have [illegible] in communication with the
French Government to settle the terms of a convention between that Government and the Company
under which the portion of the line in French territory should be constructed by the Company,
and the condition of the Secretary of State's Despatch last mentioned be complied with.
