No. 530. ORDER THEREON, 20th March 1875, No. 797.

CIVIL WORKS, No. 27.

COMMUNICATED to the District Engineer of Cuddapah.

2. It is observed that the Chief Engineer has been in correspondence with the District Engineer of Cuddapah for the last fifteen months about repairing or rebuilding this building. And that so far back as July last, in the memorandum which is taken as giving his authority for pulling it down, he particularly impressed upon the District Engineer the necessity of losing no time in submitting for sanction what proposals he found to be necessary, with an illustrative plan. He has since been told in G. O., No. 117, of 13th February, that an entirely new building on the standard plan is to be estimated for; and is now called on to accelerate submission of the requisite estimates.

(True Extract.)
