GOVERNMENT OF MADRAS

Revenue DEPARTMENT

G.O. No. / B.P. No.	818	Press / Mis.
Dated	26. 5	1961875

Not to be folded or roughly handled

No. 297. Read the following Proceedings of the Board of Revenue, dated 15th May 1875, No. 1,303, Forest No. 88 :—

Read the following letter from C. G. DOUGLAS, Esq., Deputy-Conservator of Forests, Annamalay Range, to A. WEDDERBURN, Esq., Collector and Conservator of Coimbatore, dated 5th March 1875, No. 369 :—

I HAVE the honor to suggest for your consideration whether it would not be advisable to have a recognized uniform method of calculating the cubic contents of timber sold by this department.

2. In this office, and, I fancy, generally throughout the department, we use "Hoppus,' Measurer," and it often happens that slight discrepancies occur between our figures and those of buyers ; it would, therefore, be convenient, and save much trouble, if Government would authorize the use of that book in all transactions with Public Departments. I believe there can be no objections, as the differences are so insignificant, and I make the proposal merely to do away with the trouble and delay of alterations in bills.

No. 67.

FORWARDED to the Board of Revenue, through the Inspector of Forests, for favorable consideration.

(Signed) A. WEDDERBURN,
Collector.

COIMBATORE,
9th March 1875.

No. 708.

ALTHOUGH Hoppus' Tables are not quite accurate as regards round logs, being considerably in favor of the purchaser, they are the best and most generally adopted, and the Officiating Inspector, therefore, supports Mr. Douglas' request, which has the Collector's approval, and recommends the general adoption of the tables in computing cubical contents of all timber until further orders.

(Signed) C. WALKER, Captain,
Officiating Inspector of Forests.

OOTACAMUND,
23rd March 1875.

SUBMITTED for the orders of Government as regards all Public Departments.

2. The Board approve the Inspector's suggestion.

(A true Copy and Extract.)
