Read the following letter from R. SEWELL, Esq., Acting Head Assistant Collector, to W. S. FOSTER, Esq., Acting Collector of the Godavery District, dated Ellore, 29th October 1874, No. 391 :—

WITH reference to your letter No. 194 of 1st June last, I have the honor to inform you that the extreme points of the part of the line to be demarcated on the frontier between the Nizam's dominions and our territory in this division are—at the south-west of Sivapuram in the Ellore Taluq and at a hill called Velugonda ghat on the border of Jilugumilli in the Yernagudem Taluq.

(2.) The distance between them is 32 miles and 682 yards.

(3.) The number of stones required is 168.

(4.) The cost of cutting, conveying, and setting up the stones is Rupees 422-4-0, at Rupees 2-8-0 and Rupees 2-12-0.

2. These stones are $\frac{3}{4}$ yard by $\frac{3}{4}$ yard. The stones already set up between Jilugumilli and Puchikapadu are 1 yard by $\frac{1}{2}$ yard. Such stones are not procurable in the Ellore Taluq. They are to be had only at a great distance, and the cost will be at Rupees 4 per stone, which is nearly double the cost shown above.

3. The Tahsildar's report with its enclosures are enclosed.

No. 397.

FORWARDED to the Secretary to the Board of Revenue, with reference to paragraph 5 of their Proceedings, dated the 11th July 1874, No. 1,778, and 14th August 1874, Miscellaneous No. 5,512.

COCANADA,
4th November 1874.

(Signed) W. S. FOSTER,
Acting Collector.

SUBMITTED to Government with reference to their Proceedings, dated 3rd August 1874, No. 978.

2. If the stones have not already been prepared, the Board think that a size of nine inches square (in section) as used in the survey, instead of $\frac{3}{4}$ yard, or 13 $\frac{1}{2}$ inches, as stated by Collector, will be quite sufficient for the purpose. This would also lighten the cost.
