No 40 Proceedings of the Board of Revenue, dated 28th May 1875, No. 1,454 —
Read the following letter from W. E. WRIGHT, Esq, Superintendent of Stamps,
to H. E. STOKES, Esq., Acting Secretary to the Board of Revenue,
dated Madras, 22nd May 1875, No. 712.—

As requested by the Board in their endorsement of the 8th instant, communicating the Proceedings of Government of the 23rd April, I have the honor to furnish a statement showing the actual annual sales of each of the denominations of stamps for the past five years as well as the average for the period, which, the Board will observe, is lower than the former statement calculated on the average of three years' sales.

2. I also submit an estimate showing the probable demand in the event of the new stamps of English manufacture being exclusively sent for and used. It exceeds in some instances, particularly in the high values, the sales of any one year, but the quantity is necessary to furnish every district with a supply.

3. Adverting to the latter part of paragraph 3 of the letter from the Government of India, communicated with the Proceedings of Government, I have the honor to explain that, as the statement, submitted from this office in obedience to the call for a report of the estimated annual consumption of each value of non-judicial stamped papers, was prepared with reference to the actual sales of the past three faslis, during which period papers of one anna were also sold, this value was thus shown to render the return complete, though it would have found no place in a regular indent.
