1937

Proceedings of the Madras Government, Revenue Department,
21st June 1875.

No. 161. Read the following Proceedings of the Board of Revenue, dated 20th May 1875, Miscellaneous No. 4,379:—

Read the following letter from J. HUNTER-BLAIR, Esq., Collector of Madras, to H. B. STOKES, Esq., Acting Secretary to the Board of Revenue, dated Madras, 30th April 1875, No. 101.

I HAVE the honor to submit, for the information of the Board, copies of the papers marginally noted, and to request that they will sanction the entertainment of a temporary establishment for fifteen months, at a cost of Rs. 94 a-month, to take up and complete the work of identifying certain survey numbers which are now entered in the accounts as "unknown localities," and the demand on which is being yearly written off.

2. In the absence of demarcation stones, the work of identification is very difficult in cases where the old survey boundaries have disappeared, and I am satisfied that the ordinary current work in the office of the Deputy Collector and the departments under him is so great that no officers can be deputed to perform this special duty.

3. It is necessary the work of identification should be taken up to avoid the present annual loss to Government of Rs. 1,587 on these unknown localities.

4. The usual tabular statement of the proposed increase of establishment is enclosed. The number of hands recommended is—

	Rs.
Two Maistries, 25 Rs. each	50
Two Gumastas, 15 do.	30
Two Lascars, 7 do.	14
	94

picked men will be selected for the work from the establishment of Cornams and Gumastas, and the temporary men sent to do current work which is simpler.

The Board agree with the Collector that it is necessary that arrangements should be made for identifying the lands which are now entered in the accounts as unknown localities, and for this purpose two Survey Amils, on 25 Rs. each, with two Lascars, on Rs. 7 each, ought to be sufficient. They accordingly request Government to sanction their entertainment for a period of six months. After four months the Collector should report on the progress of the work and the necessity for continuing the establishment beyond six months.

2. The cost can be met from General Savings and Land-revenue in the current year's budget.

(A true Copy and Extract.)

(Signed) H. B. STOKES,
Acting Secretary.

Proceedings of the Madras Government, Revenue Department.
21st June 1875.

No. 102.

Order in Council, 21st June 1875, No. 937.

Miscellaneous.

Before disposing of this reference,
the Government wish to be informed of
the date of the survey in question and of
the department by which it was conducted.

(True Extract.)

(Signed) A. MACGREGOR,
Acting Secretary to Government.

To the Board of Revenue.

10/10/10

Letter from Deputy Collector of 5th September 1894,
A/1314.

The Collector is much displeased on learning from the above letter that nothing whatever has been done as yet to identify sites of burial and burning grounds and unknown localities notwithstanding enquiry on the subject was ordered so long ago as 12th November 1893.

2. Orders were also sent on May 20th 1874, to submit a report of work done up to date with reference to the Deputy Assistant Comr of Charol 31st 4, 1874, at \$200, and to continue the same monthly. The Sahibdar's reason for doing nothing in the matter and not submitting the report is most unsatisfactory. If his Establishment was insufficient to do the work, he should not have allowed 10 months to elapse before reporting the fact and extra Chepattar were appointed last year.

for months to carry out the extra work
in the Land Acquisition Department,
and no report has been made since until
now. that the establishment was insufficient
to carry on even the current work.

3. The Deputy Director is therefore
requested to apply for a special establish-
ment to perform the work of identification,
but it must be clearly shown by
comparative statements that the Aboriginal
present Department is unable to do the
work in consequence of the increased
work there.

Offl Memorandum

Letter from Deputy Collector dated 31st March 1894, No 400.

It is requested that a report may be submitted monthly showing the progress made in identifying the lands entered in the accounts as "unknown localities". A report should be submitted at once showing the work done in April 1894, and future reports should be submitted so as to reach the office on the 5th of the month following that to which they relate.

In regard to the double assessments which are explained to have resulted from the issue of fresh Bills for land already covered by anticipator with reference to the operations of the Survey Department a special report should be submitted as soon as it comes to notice in order that the sanction of the Board may be obtained to permanently deduct the excess from the demand.

The statement submitted in regard to

Letter

Apr 1968

Major Deputy Collector's Office
12, December 1874

Sir,

The Deputy Collector of Chhara

To

The Collector of Narnia

Sir,

210553 of 18
September 1874

With reference to your letter of 22 per margin,

I have the honor to forward an application in due form for a temporary establishment at a cost of Rs 10000 a month to be retained up to the 31st March 1875 with a comparative statement of work in the office. I am not certain whether the estimated location has changed with a cost of Rs 10000 a year and which amount is being year written off as uncollectable, will have been recovered by that date with effect with reference to the expenditure to complete the work by that time.

The greatest difficulty will be felt in finding out the location for which uncollectable bills have been issued, for they do not show either the boundaries of the lands or their survey number and in many cases not even the extent. In such cases it is necessary to refer to the records of the period in which such a bill was issued.

As a letter from the Collector
to the Deputy Collector
of Narnia of 21/9/1874
has been received
and the Deputy Collector
has been directed to
send the same to the
Collector of Narnia
for his consideration
and the same has been
sent to the Collector
of Narnia for his
consideration.

for the first time issued. This period is often
as old as 50 years. In some cases numbers of
certificated pieces of lands will have to be
measured in order to find out whether
uncertificated lands as aforesaid are not
included in the former. When the temporary
establishment is sanctioned, I intend
employing it on the ordinary current duties
of the office, and transferring an equal
number of old lands possessing good
experience to do the detecting work.

I have

Deputy Collector's Office
Chadras 5th September 1874

Y^r com,

The Deputy Collector of Chadras

C^o,

The Collector of Chadras

Sir,

As desired in your memo, C^o 540, I
beg to report that no progress has been made
in identifying the lands entered in the accounts
as "unknown" since April last. No monthly
reports have been submitted by the Tahsildars
as he should have done, under the impression
that there was nothing to report. I have now
informed him that he should in future submit
these reports to me on the 1st of every month.
The reason assigned for no progress is, that
the work in the Land Acquisition Department
has been so much increased that no inspection
could be spared for the work. I trust that
the reason given is true, and that the work
in every department under me has been increased
to such an extent that there are no men

I am, Sir, from the

(Sd/-) Mr. D. N. S. Talbot

Deputy Collector, Chadras
