Proceedings of the Madras Government, Public Works Department,
30th March 1876.

Nos. 511 & 512.

ORDER THEREON, 30th March 1876, No. 817.

IRRIGATION, No. 51.

Account.

THE above statement which has been compiled from the returns received from the local officers shows that under Capital Extraordinary the savings amount to

Rupees 7,002, and the demands to Rupees 7,945.

2. The demand which is for the improvements to the Survapully channels, Item No. 19 of the Budget for the year, will be met to the extent of the savings by the necessary transfers which are authorized subject to the approval of the Government of India.

3. Under Capital Ordinary the savings amount to ... Rupees 57,068
And the demands to ... " 48,616

Net savings ... " 8,452

4. The sum of Rupees 18,000 has been surrendered by the District Engineer, Nellore, from the amount of Rupees 25,000, Item 67 of the Budget, and explanation should have been afforded of the cause of the short outlay. The District Engineer, Godavery, gives up Rupees 7,555 of the grant (supplementary) of Rupees 15,000 by the Government of India for constructing protective works round the Polarum Island. Expenditure was restricted by the Order of this Government, No. 2,765, dated 24th September 1875. The other surrenders require no special notice.

5. The original grant for the Chembrumbankum Tank Project, Item No. 29 of the Budget, amounted to Rupees 28,000. This was reduced to Rupees 8,000 by transfer to the Pennair Anicut, and the District Engineer now enters a demand for Rs. 25,991. The works in progress are necessary for the safety of the tank, and the expenditure could not be delayed. Funds were also required for compensation for land already taken up.

6. The transfer of Rupees 6,480 to the District Engineer, Kurnool, for the construction of new escapes to the Nundial tank is necessary in order to render the work secure before the rains. For the Godavery embankments, Items Nos. 63 and 64 of the Budget, an additional grant of Rupees 4,000 is required, and with the remaining demands will be met from the savings recorded, leaving a saving unappropriated of Rupees 8,452 under works which, with the sanction of the Government of India, will be reserved to cover in part the anticipated increase under Suspense (Stock Balance), Godavery District. The saving of Rupees 2,046 under Tools and Plant, Capital Ordinary, as well as the saving of Rupees 2,422 under Tools and Plant Revenue, will, subject to the same reservation, be similarly dealt with.

7. No specific appropriation can be made to meet the demands amounting in the aggregate to Rupees 12,930 under Tools and Plant Ordinary.

8. A copy of these Proceedings will be forwarded to the Government of India

with a request that sanction may be accorded where necessary.
