*Proceedings of the Madras Government, Revenue Department,
9th August 1876.*

No. 70. Read the following Proceedings of the Board of Revenue, dated 19th July 1876, No. 1,863, Forest No. 65 :—

Read the following letter from Lieutenant-Colonel R. H. BEDDOME, Conservator of Forests, to C. A. GALTON, Esq., Acting Secretary to the Board of Revenue, dated Mettapolliem, 12th July 1876, No. 948.

ADVERTING to a copy of Mr. Logan's letter to the Board, No. 163, of the 24th of June last, forwarded to me by that officer, I have the honor to remark that it would be an anomaly if a large tract of forest in an important division like the Wynad, where we have a skilful trained Conservator, were to remain entirely under the Collector and be quite alienated from the professional superintendence and control of the Forest Department. The present Collector may take a great interest in it, and may have the technical knowledge required, but another man may any day take his place who would take no interest in it at all, and it would without a doubt be transferred to us at some future date, and then there would probably be no records to show what had been expended or what had been done, &c., as experience in similar cases has proved, and no one would be responsible for what had been done or left undone. I approve of Mr. Logan's scheme as far as the Teak is concerned, though his Aynco (Artocarpus) planting will be a failure; but I do not see why his plans should not be carried out under his orders by Mr. Peet, in whose office all records regarding the experiments should be kept, and who should furnish this office with full information as to the progress and probable success of the scheme.

COMMUNICATED to the Collector of Malabar.

2. The proposal that Mr. Logan's plans should be carried out under his orders by Mr. Peet seems to meet the case, and the former is requested to state whether he assents to the Conservator's proposals.

(A true Copy and Extract.)
