FOREST No. 63.

PROCEEDINGS OF THE BOARD OF REVENUE, dated 7th July 1876, No. 1,740.

Read the following letter from H. SEWELL, Esq., Acting Collector of Trichinopoly, to C. A. GALTON, Esq., Acting Secretary to the Board of Revenue, dated 15th June 1876, No. 164:—

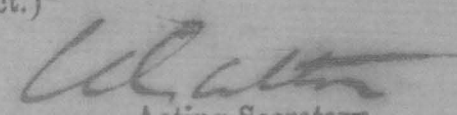

ADVERTING to the Board's official memorandum, No. 798, dated the 29th ultimo, I have the honor to inform you that Mr. Hadfield, the Assistant Conservator, has on the 10th instant brought to my notice that he has not as yet been successful in selecting a suitable piece of land for experimental planting except the one objected to by the District Engineer.

2. The block from which Mr. Hadfield originally selected 100 acres for the proposed experiment consists of above 200 acres of Padugai land, and the objection taken by the District Engineer to any portion thereof being made over to the Forest Department was that the land supplies brushwood barely sufficient for the construction of coramboos to divert water into certain important irrigating channels. As Mr. Hadfield states that he has not been successful in selecting another suitable piece, and as great delay has already occurred, I have this day written to the District Engineer requesting him to let me know if some 50 acres only of the block adverted to cannot be allotted for the desired experiment. As soon as I get his reply I shall report to the Board whether or not it will be possible to carry out the experiment without making it too costly.

SUBMITTED, together with copy of Board's Miscellaneous Proceedings, No. 10,804, dated 3rd December 1875, for the information of Government, with reference to G.O., dated 25th August 1874, No. 1,067, paragraphs 4 and 5.

2. The further report promised by the Acting Collector is awaited.

Miscellaneous No. 10824

PROCEEDINGS OF THE BOARD OF REVENUE,

Dated 3rd December 1875.

From No. 327 Read the following
The Acting Collector of
Trichinopoly
To The Secretary to the
Board of Revenue
Madras.

Sir. I have the honor to acknowledge the receipt of your Official Memorandum No. 1940 dated the 22nd instant calling for the early submission of the reports required on the suggestion whether it is still possible to carry out certain experimental plantation in the District without making it too costly.

2. At the requisition of my predecessor, the Deputy Conservator selected a piece of land suited to the purpose and

and desired that the necessary measures may be adopted to obtain its possession. The Acting Head Assistant Collector held a thorough Enquiry and submitted to this office full details concerning the land. The District Engineer to whom a reference was made on the subject owing to the greater portion of this land forming Padigai lands in charge of the Department of Public Works objected on the ground that the block from which the Deputy Conservator has selected 100 Acres for the proposed experiment supplies brushwood barely sufficient for the construction of Coramboos (Temporary dams) to divert water into the Iyer and Peruvalai Channels in bad seasons and that

no portion of this land should be transferred to the Forest Department.

3. I have therefore been obliged to ask the Deputy Conservator to select another piece of land and I have this day sent him also a reminder on the subject.

4. I am fully aware of the importance of the subject and I shall lose no time in submitting the requisite proposals to the Board as soon as an eligible piece of land has been secured.

2/3
Memo for Order.

Boards Proceedings
7 July 1875 to 1940.

In G.O. 19 Aug. 1870
N. 1297 paras 7-12, orders
were issued for the formation
of a fuel plantation on
wargable land in the
Trichinopoly or Coimbatore
District.

The G.O. N. 1054, 15
June 1871 N. 1054 sanctioned
an outlay of Rs 5000 for
carrying out the experiment
on wargable land at Elama
nore in the Trichinopoly
District, selected by Capt.
C. Walker.

With G.O. 25 August
1874 N. 1064 and 7 December
1874 N. 1571, are printed
letters from Capt. Campbell
Walker reporting on
this plantation.

It fits the cultivation of
human food that object
of the experiment. But
Padayai land is generally the
most coveted in the district.

From the land is this as-
sessment made?

In

In the former of these
letters ~~of the~~ Campbell
Walker dwelt on the
expensiveness of the expe-
riment. The collector
was ordered ^{to report} para 5 of
25th August, whether it
was still possible to
carry out the experiment
without making it too
costly.

On the 8th September
(apparently before the
receipt of the last quote
order) the collector ad-
dressed the Board over
certain difficulties con-
nected with the obtaining
Padagang lands. This
letter was disposed of
in C.O. 66 February 1895
No 249. In para 11 of
that Order the Public
Works Department were
directed to state ex-
actly what portion

1100/1
of the Padagang land
along the railway ~~the~~
required for ~~the~~ con-
servancy and orders were
issued by them for pre-
paration of a map ex-
hibiting the the reserve
see and in para 15. Instructions
were given that a general
report should be forwarded
regarding the lands to
be selected, and ^{as to} how
it was proposed to
deal with them. ~~The~~
The report called for from
the Dept Pub Works has
not been received
from the general report.
but the latter depends
on the former - ~~that~~

The Board now report
that the collector is
taking active steps
to procure land for
the extension, it is
presumed, of the ex-
periment -

The following is submitted that
the Plantations
will have now passed
into the control of the
conservator, as intended,
and there is no need
for the collector's fear
their interference in the
matter, and that the
conservator should
be called upon for a
detailed report on the
state of the Plantations
and how far the in-
structions contained
in G.O. August 1870
have been carried
out, and whether or
not it is desirable
to continue the experiment
in accordance with
those instructions.
The sum of Rs 1000
had been spent up to close
of 1870 in this plantation
but there is little

sent to you - the collector
better by and his functions

He will also
And submit a careful
state of all expenses of the
working till a full description
condition - He has just
seeing with a case in which
an amateur collector has
Rs 10,000 of jungle conservator
money and as a plantation
had to be sold for Rs 100
order. He is rid of the animal
drain - on having a full
experiment based on his
experiments or are apt to
a great deal of money
or call for a detailed
estimate

Proceedings of the Madras Government.

Under date No. 1111 August 1876

Rev. Secy. Board of Revenue

7. July 1876 - N. 1740.

In G.O. 19. Aug. 1870
N. 1257 paras 7-12, orders
were issued for the formation
of a forest plantation on
irrigable land in the Trichinopoly
of Coimbatore District.

The G.O. N. 1064
15th June 1871 sanctioned
an outlay of Rs. 5000 for
carrying out the experiments
on irrigable land at Elamangudi
in the Trichinopoly District,
selected by Capt. C. Walker.

With G.O. 25th May 1871

7. Aug 1876. R. 121 Aug

N. 1067 and 7th Dec. 1874
N. 1511 are printed letters
from Capt. Campbell Walker
reporting on his plantation.
In the forms of these
letters Capt. Campbell Walker
dwelt on the ~~success~~ of the
experiment. The collector was
ordered, in para 5 G.O. 25th Aug.
to report whether it was still
possible to carry out the
experiment without making it
too costly.

On the 8th September
(apparently before the receipt of
the last quoted order) the collector
addressed the Board on certain
difficulties connected with the
~~operation of~~ obtaining Padang lands.
This letter was disposed of in
G.O. 16: Feb. 1875 N. 249.
In para 11 of that order the
P.W. Dept. were directed to state
exactly, what portion of
the

the Padang land along the
Canary they required for
river consumption, and orders
were issued by them for
preparation of a map exhibiting
the reserve &c., and
in para 15 instructions
were given that a general
report should be forwarded
regarding the lands to be
selected and as to how it
was proposed to deal with
them &c.

The report called for
from the Dept. Public Works
has not been received.

The Board now
report that the collector
is taking active steps
to procure land, for the
extension, it is presumed,
of the experiment.

The

The Genl. Knapp has
that, as these Plantations
have now passed under the
control of the Conservator
as Imperial, there is no
need for the ^{Govt.} further
interference in the matter.

The Conservator will now
submit, at an early date,
a detailed report on the
state of the Plantations
and state how far the
instructions contained in
G.O. August 1870 have been
carried out, and whether or not
it is desirable to continue the
experiment in accordance with
those instructions.

He will also submit a
careful estimate of all expenses
of planting and working till
the plantations become
financially productive.

The Genl. Knapp that
