GOVERNMENT OF MADRAS

Revenue DEPARTMENT

G.O. No.	1179	Press
B.P. No.		Mis.
Dated	28-8-1876	196

Not to be folded or roughly handled

1179

*Proceedings of the Madras Government, Revenue Department,
28th August 1876.*

No. 297. Read the following Proceedings of the Board of Revenue, dated 9th August 1876, No. 2,030.

Read the following letters:—

From W. LOGAN, Esq., Collector of Malabar, to C. A. GALTON, Esq., Acting Secretary to the Board of Revenue, dated Calicut, 20th July 1876, No. 190.

With reference to the Proceedings of the Board of Revenue, No. 458, dated 16th February last, I have the honor to forward herewith a statement embodying the information therein called for.

2. The lands mentioned in the list are to be disposed of under the Waste Land Rules, and I see no objection to the cost of survey and demarcation being taken as the price of the land, the applicants being bound to come under fresh obligations, if necessary, in respect of mining rights.

3. Several applications which are either avowedly for lands for gold mining or which are believed to relate to such lands have been excluded from this list, and I would propose to delay the disposal thereof pending final orders on the gold question.

ENCLOSURE No. 1.—Statement.

From the same Officer, dated Tellicherry, 31st July 1876, No. 203.

REFERRING to G.O., Revenue Department, No. 1,001, dated 25th instant, and my letter, No. 190, dated 20th instant, I have the honor to suggest that to prevent much disappointment to applicants for waste lands in Wynaad, I may be allowed to dispose of the pending applications after personal inspection by the Wynaad Deputy Collector and on his reports that the lands applied for present no indications of being auriferous.

2. This will not be such a satisfactory arrangement as that of deputed an officer of the Geological Survey to make the inspections, but, under the circumstances, it is the best I can suggest.

3. I would, of course, at the same time propose to insert a condition in the deeds reserving all mineral rights.

SUBMITTED for the orders of Government.

2. The Board recommend that the Collector be authorized to dispose of pending applications as proposed, on condition that the mineral rights of Government are strictly reserved. The Board note that such applications as are believed to have been made with a view to gold mining have not been included in the list submitted with the first of the foregoing letters. It is presumed that the position of the blocks for which no boundaries have been given is approximately known to the Collector.

(True Copies and Extract.)

(Signed) C. A. GALTON,
Acting Secretary.

No. 298. ORDER THEREON, 28th August 1876, No. 1,179.

Miscellaneous.

It is observed that these applications seem to have been made with the *bonâ fide* purpose of bringing the lands

*Proceedings of the Madras Government, Revenue Department,
23th August 1876.*

under cultivation. If therefore the further inquiry proposed shows that they are not likely to contain minerals, the lands may be sold in fee simple, under the Waste Land Rules—it being formally intimated to the purchasers that such right as the State may be able to claim in the way of Royalty from mines discovered on land which is private property, is fully reserved.

2. For some of the lots no boundaries are specified. In these cases the Collector is not at liberty to proceed any further till the information is supplied. Such boundaries should as far as possible be run straight from corner to corner, to save time as well as expense in demarcating.

(True Extract.)

(Signed)

D. F. CARMICHAEL,
Secretary to Government.

Read Prop. - Vol. Rev.

9th Aug 1876.

1179/9

It is observed that these applications seem to have been made with the bona fide purpose of buying the lands under cultivation. It appears the further inquiry proposed shows that they are not likely to contain mineral wealth, the lands may be sold in fee simple, under the Waste Land Rules - it being intended to be purchased that such right as the State may be able to claim in the way of Royalty from mines discovered on land which is private property, is fully retained.

2. For some of the lots no boundaries are specified. In these cases the Officer cannot proceed any further till the information is supplied. Such boundaries shall as far as possible be run straight from corner to corner, to save time as well as expense in demarcating.
