*Proceedings of the Madras Government, Revenue Department,  
31st August 1876.*

No. 334. Read the following letter from Lieutenant-Colonel R. H. BEDDOME, Conservator of Forests, to the Hon. D. F. CARMICHAEL, Secretary to Government, Revenue Department, dated Madura, 25th August 1876, No. 1,080 :—

ADVERTING to G.O., No. 951, of the 15th ultimo, I have the honor to inform you that I could not state how many copies might be required by the India Office.

2. It does not appear to me that the work would be of much interest to scientific men in Europe; it is rather to cultivators of the bark in India, Ceylon, and Java that the work would be of interest and utility; the hybrids are not always clearly marked in their characters or by any means constant; and, as the color of the leaves is very often one of the most marked points, the drawings should be colored ones made on the spot from living specimens, not drawings made from dried specimens, in the Museum at Madras.

No. 335. ORDER THEREON, 31st August 1876, No. 1,199.

Miscellaneous.

COMMUNICATED to the Superintendent of the Government Central Museum, who will state how many copies he proposes to have struck off, and how he would desire to have them distributed.

2. His attention is called to Colonel Beddome's remarks regarding the advisability of making the drawings of the leaves from fresh specimens.

(True Extract.)

(Signed) D. F. CARMICHAEL,  
*Secretary to Government.*

To the Superintendent of the Government Central Museum.  
„ the Conservator of Forests.

Office of Conservator of Forests  
Camp, Madras, 28 August 1906

To Mr. R. F. Reddome,  
Conservator of Forests

To Mr. J. S. Carmichael,  
Secretary to Government,  
Revenue Department,  
Ootacamund.

Sir,

According to G.O. No. 951 of  
the 15<sup>th</sup> ultimo I have the honor to  
inform you that I could not state  
how many copies might be required  
by the Indian Office.

It does not appear to me  
that the work would be of much  
interest to Scientists in Europe  
it is rather to Cultivators of the  
Banks in India, Ceylon and Java  
that the work would be of interest  
and utility, the hybrids are not  
always clearly marked in their  
characters or, by any means  
constant and as the value of  
the leaves is very often one  
the most marked points, the

AUGUST

NOV. 23, 1906

These are the first specimens of the  
species of the genus *Pinus* found  
in the Indian Archipelago. The  
specimens were collected by Mr. J. S.  
Carmichael, Secretary to Government,  
Revenue Department, Ootacamund.  
The specimens are now in the  
possession of the Government of India,  
and are being preserved in the  
National Museum, Calcutta.

drawings should be colored ones  
made on the spot from living  
specimens, not drawings made  
from dried specimens in the  
Museum at Madrid.

I have the honor to be  
Sir,

Your most obedt. Servt.  
J. W. Townsend Esq.  
Consul of Greece
