*Proceedings of the Madras Government, Public Works Department,
4th January 1876.*

No. 35.

Read the following:—

N^o. 466.

Note by the Chief Engineer for Irrigation.

The following estimate has been submitted by the Superintending Engineer, Coimbatore:—

Tarampully Tank Repairs, pees	350.
Minor New Works,	400.
Ayacut area	Acres 207
„ assessment	Rupees 760
Average revenue	„ 639

The following outlay has been incurred in recent years, viz:—

1872-73	Rs. 864
1873-74	„ 1,145
1874-75	„ 135

Rs. 2,144

The circumstances of the tank have been elicited by the correspondence marginally noted, and it may be hoped that in future estimates will be submitted in the first instance accompanied by information on all essential points. The tank had an escape only 23 feet long, over which apparently but a foot of water could pass with safety, and as it was liable to receive surplus from the Agaram tank in Mysore over a calingulah 53 feet long with a maximum depth of 2½ feet passing over, this calingulah breached and so the Tarampully tank suffered, but had the calingulah not been breached the means of disposing of surplus at the lower tank would have been altogether inadequate. It is now intended to build a new escape 55 feet in length over which a maximum depth of 3 feet of water will be capable of passing with safety, and the tank will then probably be secure.

FORT ST. GEORGE,
18th December 1875.

(Signed) JOHN MULLINS, Lieut.-Col., R.E.,
Chief Engineer for Irrigation.

No. 36.

ORDER THEREON, 4th January 1876, No. 18.

IRRIGATION, No. 5.

Account.

The following estimates are sanctioned:—

Coimbatore District.		Revenue.	Capital.
		RS.	RS.
Tarampully Tank Repairs	...	350	...
A new Surplus Weir	...	...	400
