*Proceedings of the Madras Government, Revenue Department,
3rd November 1876.*

No. 24. Read the following Proceedings of the Board of Revenue, dated 2nd November 1876:—

Read the following telegrams:—

From Collector of Kurnool, dated 2nd November 1876.

GRAIN procurable with difficulty in small quantities. Third sort rice $4\frac{1}{2}$ jonna 5 measures market-rate. Coolies receive males 2 or $2\frac{1}{2}$ Annas, females 1 Anna and 4 or 6 Pies; boys and girls 9 Pies or 1 Anna. Money urgently wanted to send for grain from outside. Please ask Accountant-General to arrange for allowing me to draw on him up to a certain amount.

From the same officer, dated 2nd November 1876.

BOARD already sanctioned Rs. 40,000. Spent on Collector's division 17,000; Peapalli Division 7,300; Nandial Division 6,000; advanced to merchants for grain 9,000. Please sanction 25,000 in addition to 50,000 Rs. requested in telegram of yesterday as this will be spent by time rice comes.

SUBMITTED to Government.

2. The second telegram shows that the money already sanctioned is exhausted, Rs. 39,300 being already expended on relief works and in advances to merchants for grain. The Board resolve, therefore, to sanction the further grant of Rs. 25,000 applied for, and the Collector will be informed of this sanction by telegraph.

3. The application for Rs. 50,000, which is apparently required for purchase of rice beyond the limits of the district since the money is to be paid in Madras, was submitted yesterday for the orders of Government. The Collector apparently has entered into contracts for purchases in Madras, as to which he has given no information. He will be requested by telegraph to report details of the contracts.

4. The Board cannot approve the action which Mr. Foster has apparently adopted, and think that orders should be issued prohibiting the Collectors of the distressed districts from purchasing grain from outside markets without the knowledge and sanction of the Board or Government. In this case, it is most probable that grain could be obtained on more advantageous terms or, at any rate, more quickly from Gooty, whither large supplies have been sent, than from Madras.

5. The Collector reports that grain is still procurable in Kurnool, though with difficulty and in small quantities, and at present prices the rates of hire which he has adopted are adequate. It is impossible that, at the present season, the ordinary stores of grain in the district can be exhausted and importation by Government from outside seems to the Board premature.

6. The following telegram will be sent to the Collector:—

“Rs. 25,000 sanctioned. Orders are awaited as to further Rs. 50,000 asked for. Report details of contracts for grain entered into, stating quantities and prices, whence to be supplied, and when paid for.”
