Proceedings of the Madras Government Revenue Department,
16th November 1876.

No. 269. Read the following Proceedings of the Board of Revenue, dated 24th October 1876, No. 2,646 :—

Read the following letter from J. R. DANIEL, Esq., Acting Collector of Cuddapah, to H. E. STOKES, Esq., Acting Secretary to the Board of Revenue, dated 19th October 1876, No. 265.

I HAVE the honor to forward copy of a letter (No. 401, dated 11th October 1876) from the Head Assistant Collector requesting sanction to give up the tank-bed in Jangamrazpalli, and also asking for general sanction to allow the cultivation of the tank-beds throughout his division in the event of the failure of the north-east monsoon.

2. As this Jangamrazpalli tank is in disrepair, and will not be repaired this year by the Department of Public Works, I have sanctioned the cultivation of the tank-bed for this year only.

3. If the north-east monsoon does fail, I hope the Board will allow the cultivation of the tank-beds throughout the district; if there were any special objections made by the Department of Public Works to the cultivation in the bed of any particular tanks, I could refuse sanction, but generally the cultivation should be permitted; every facility should be given to the ryots for producing grain of any kind.

ENCLOSURE No. 1.

From R. S. BENSON, Esq., Acting Head Assistant Collector, to J. R. DANIEL, Esq., Acting Collector of Cuddapah, dated Budwail, 11th October 1876, No. 401.

I HAVE the honor to forward, for your early orders, a petition from some ryots of Jangamrazpalli requesting permission to cultivate with dry crops the bed of a tank in their village.

2. This tank was breached in 1873. The Department of Public Works have been asked if it is their intention to repair the tank, but as yet no reply has been received.

3. Fifty acres at Rupees 4 would be cultivated, Revenue Rupees 200. The ryots strongly urge the present distress as a reason for permitting them. They will give up the land when required without compensation.

4. I take this opportunity for suggesting that, in the event of the north-east monsoon failing, the tank-beds throughout my division may be given for cultivation as a special case this year, otherwise the distress will be very great.

This was permitted last year in Bellary Head Assistant Collector's Division.

In some cases the Department of Public Works might object on the ground of injury likely to result to the sluices and channels, &c. The tanks to be cultivated and those to be refused could be settled in communication with the District Engineer and Range Officers.
