No. 492. From Major J. BEATTIE R.E., District Engineer, Godavery, to Lieutenant-Colonel J. MULLINS R.E., Chief Engineer for Irrigation, dated Dowlaishweram, 30th May 1876. No. 570.

With reference to paragraph 5 of No. 698, of the 17th March 1876, I have the honor to forward, herewith, an estimate of the cost of the Survey Establishment required to carry out the investigations in connection with the Polaveram Island, and to inform you that the work has already been put in hand as directed.

No. 74 W.

No. 492-A. Note by the Chief Engineer for Irrigation.

THE estimate for surveys and levels, in connection with the Polaveram Island embankments, should have been supported by a memorandum of the quantity of work to be done. Without such details it is dear that the District Engineer could not form an opinion on the correctness of the estimate.
