Proceedings of the Madras Government, Revenue Department,
18th November 1876.

No. 313. Read the following letter from W. S. FOSTER, Esq., Acting Collector of Kurnool, to the Hon. W. HUDLESTON, Chief Secretary to Government, Fort St. George, dated 6th November 1876, No. 527 :—

WITH reference to your telegram, dated 4th instant, I have the honor to inform you that I have discussed with Mr. Latham the feasibility of [illegible] carriage of grain on rafts. We think that the scheme is [illegible] front de[illegible]. Rafts, as a rule, are useful only when they can float with the current and not against it, and the only way in which we can utilise the canal is for bringing grain up the canal. Hence rafts are useless. Besides no grain can be carried on rafts unless they are rendered water-tight. We, therefore, consider that if the canal is to be used as a means of transport, we must have boats at once.
