MADRAS RECORD OFFICE

GOVERNMENT OF MADRAS

Revenue DEPARTMENT

G.O. No.	1752	~~Press~~
B.P. No.		Mis.
Dated	24-7-1876	196-

Not to be folded or roughly handled

1752 Revenue Department

Proceedings of the Board of Revenue.

Dated 17 July 1876.

Read the following:—

No. 1087.

From The Collector, Kistna.

To The Secretary, Board of Revenue
Madras.

Sir:

I have the honor to reply to
para 2 of Board's Proceedings, dated
June 6, 1876. I have not the Petition before
me, and therefore can only reply
to what is entered in the Board's Pro-
ceedings.

2. In regard to Toddy for distillation
Petitioners complained to me, early in
this year, that in Narasarpeta,
and Palnad he could not get toddy

from Government trees sufficient
for his purpose, because the Toddy
Contractors would not supply him;
these are subvented taluqs with stills
scattered all over them. I caused a
rough enumeration of trees on Govern-
ment land to be made and
found that there were barely
sufficient to supply what was esti-
mated to be wanted for Toddy-drinkers
and therefore in these Taluqs,
I refused to divide the trees,
leaving it to Petitioners to make any
arrangement with private holders
for toddy, or any other that might
suit him.

2/12/54
3. Had I divided the trees, I might
have brought about the very thing that
the Government desire to prevent, viz.
a scarcity of toddy.

4. In regard to the sites for his shops
Makarala Venkataswami Naidu, gave
me a petition that he wanted a
new site for a shop in each of the
villages in which he had a Toddy
Shop, about 7 months ago, and I
told him I would take up the matter
if he would send me a list of the
particular places and choose the
sites he wanted: this he has not
done.

5. The reason why Circular No 58

3/25

of 1875, was modified, and why the Toddy renter is not held by me in all cases who bound to give toddy for distillation is that Toddy that is not delivered at the still before noon is considered unfit for distillation; and therefore it is worse than useless to hold the Toddy renter bound to give up part of the produce of trees that are at too great a distance in Talings where the number of stills is limited.

6. Where the stills are scattered, the Toddy Contractor, if there be sufficient trees, is held to be bound by clause 5.

Revised.

2. The explanation is satisfactory, and the arack Renter appears to have had no valid ground for complaint.
