*Proceedings of the Madras Government, Revenue Department,
11th February 1876.*

No. 109. Read the following Proceedings of the Board of Revenue, dated 27th January 1876.

Read the following letter from J. H. GARSTIN, Esq., Collector of South Arcot, to H. E. STOKES, Esq., Acting Secretary to the Board of Revenue, dated Cuddalore, 18th January 1876, No. 18.

In continuation of my letter of the 15th instant, No. 15, I have the honor to submit herewith a copy of a letter from the Acting Sub-Collector reporting on the state of the dry crops in the taluqs of Virdachellam and Kullakurochi in his division.

2. I have called on him to state whether he considers punga remissions are required, and if so, to what amount.

3. From the reports of the two Tahsildars embodied in the report, it seems that in the Titlagudi Division of Virdachellam the dry grains sown early have yielded crops varying from $\frac{1}{4}$ th to $\frac{3}{4}$ th of the average, while those sown late are not likely to yield any.

In the Virdachellam Division the produce of dry crops cut has been shorter than usual. Those now green are likely to fail if no rain falls.

In the Nullore and Kummapuram Divisions the crops are doing well.

In the Kullakurochi Taluq the dry crops of fifty villages have withered, while those of six more are likely to become so.

Excepting in Chidambaram and Cuddalore, where the rain-fall during all December was a little in excess of 4 inches, the fall in the other taluqs during that month was as shown below :—

Kullakurochi	...	...	...	...	...	0.77
Tindivanam	...	...	...	...	...	1.10
Trikalore	...	...	...	...	...	0.68
Trinomalay	...	...	...	...	...	1.15
Villapuram	...	...	...	...	...	0.30
Virdachellam	...	...	...	...	...	1.45

During the current month the only fall registered is .04 of an inch at Cuddalore on the 2nd instant.

The Board await the Collector's further report as to the necessity for dry remissions.
