There is distress amongst the poorer classes in most parts of the District.

Notably Pulimudala, Jamunameduge and Budwail there is grain but the people have no employment and no means of buying. The merchants hold out in the hope of still higher prices. Crime is increasing - house breaking and numerous petty thefts of grain. There is still time for rain and after the end of this week there have been tolerable falls of rain which it is to be hoped will continue.
