*Proceedings of the Madras Government Revenue Department,
9th December 1876.*

No. 215. Read the following Proceedings of the Board of Revenue, dated 5th December 1876, No. 3,066 :—

Read the following letter from J. HOPE, Esq., Acting Collector of the Coimbatore District, to H. E. STOKES, Esq., Acting Secretary to the Board of Revenue, dated Coimbatore, 25th November 1876, No. 351.

I have the honor to report that about the end of last month the Tahsildar of Bhadrachellam brought to my notice that owing to the failure of the monsoon the wet and dry crops almost entirely failed; that the quantity of food on hand was nearly exhausted; and that therefore many of the Koyas had left the taluk for Bastar, and that some others were preparing to follow them. He also reported that the merchants of the place were keeping back their grain from the market in hopes of making a larger profit hereafter; that the merchants heard from Rajahmundry that nobody was allowed to export grain from Rajahmundry to Bhadrachellam; and that, if no supply was received from Rajahmundry, no food would be available for people at Bhadrachellam. I heard to the same effect from Mr. Vanstavern, the Executive Engineer, who knows that part of the country well, and who wrote to say that himself and his servants had only a few days' provisions left; that the stock in the bazar was almost exhausted; and that he did not see any immediate prospect of rice being imported into Bhadrachellam. The state of the taluk being such, I lost no time in ordering the Sub-Collector at Rajahmundry by telegram to buy eighty bags of rice on behalf of Government and to send them by a steamer, imposing on the Government of Bhadrachellam with instructions to sell the same at cost price including all charges of conveyance, godown-rent, &c. The rice was bought, but before it could be sent I learned that the usual steamer plying between Rajahmundry and Dumagudem had taken the previous day some 150 bags of rice on private account. The rice purchased by the Sub-Collector was therefore not sent up the river.

2. From subsequent communications received recently from Mr. Vanstavern and the Rev. Mr. Cain, Church Mission Society, it would appear that the scanty crop which may be harvested this year is likely to last till the end of December next and that considerable distress will from that time onward be felt.

3. Anticipating the necessity which will then probably arise for relief works (especially among the agricultural classes, who have been deprived of their means of livelihood by the failure of the monsoon), I called on the Tahsildar to submit a list of such works which he would propose, and he, in consultation with Mr. Vanstavern, proposes the clearing of a road from Dumagudem to Bhadrachellam, the repairs of a tank and some distribution channels belonging to Government, and the improvement of the new village of Dumagudem by repairing wells, &c. I have called for estimates and for some other information, but as it will take some time before I receive them, and as it is very desirable that I should be able to sanction the execution of some relief works as soon as a *real necessity* is shown for such a measure, I beg to request that I may be authorized to spend a sum not exceeding 5,000 Rupees on relief works in the taluk. I intend visiting the taluk early in January next and will then see for myself what should be done.

The Board do not think that emergency exists at present, or is so far as shown likely to arise, such as would justify them in acceding to the Collector's

*Proceedings of the Mysore Government, Revenue Department,
31st December 1876.*

request. The harvest in the Central Province has been good, and doubtless grain will come into Bhadrachalam thence.

2. In absolute necessity cases, of course funds will be forthcoming. The Collector should be prepared, and should have his works lined out and arranged for, and his arrangements for control organized. He will then be in a position, in case of necessity, to submit definite proposals. He will telegraph precise ruling at Bhadrachalam.

(A true Copy and Extract.)

Acting Secretary.

No. 213.

Order passed on 29th December 1876, No. 1391.

Misellaneous.

The Board's instructions are approved. The Collector will watch the state of the taluk, and telegraph the earliest indication of distress that may manifest itself there. In the mean time he will place himself in communication with the authorities of the Central Province.

(True Extract.)

(Signed) D. P. CAMERON,

Secretary to Government.

To the Board of Revenue,

the Mysore Government.

Proceedings of the Board of Revenue
Dated 5th November 1871
Read the following

No. 355.

James Hope Esq.
Ag. Collector.
H. E. Stokes Esq.
Ag. Secy to the Board of Revenue.
Madam.

I have the honor to report that about the end of last month, Mr. Schindler of Shadachellum brought my notice, that owing to a failure of the monsoon, the work & people were seriously affected, and the quantity of food on hand was nearly exhausted, and that the officers & men of the Regt. had left Shadachellum for Basar, & that some others were preparing to follow them. It also reported that the merchants of that place were keeping back their grain from the market in hopes of making a large profit hereafter, and the merchants here & from Rajahmundry that nobody was allowed to export grain from Rajahmundry to Shadachellum, and that if no supply was received from Rajahmundry, no food would be available for people at Shadachellum. Hearing of the same effect from Mr. Vanabaram, the Revenue Enquirer who knows that part of the country well, & who wrote to say that himself

REVENUE.

and his servants had only a few days' provisions left
 that the stock in the Bazar was almost exhausted &
 that he did not see any immediate prospect of
 any being imported into Chhachellum. The state
 of the lake being such, I lost no time in ordering
 Mr. B. to be at Rajahmundry by telegram & by
 a large force on behalf of Government & to send them
 by a steamer, if possible, to the Chhachellum of Chhachellum
 with instructions to sell the same at
 best price including all charges of cartage, &
 to return the same. The sum was bought but before
 it could be paid, I learned that the terminal
 steamer plying between Rajahmundry and
 Rajahmundry had taken the previous day
 and so being in a private manner to the same
 purchased by the collector was therefore not
 put up for sale.

Some subsequent communications received from
 Mr. B. of Rajahmundry & Mr. B. of Rajahmundry, the
 former being that it would appear that the
 crop which might be harvested this year is likely
 to be such that the rice & other crops will be
 considerable and that from that time onwards he felt
 that in packing the remainder which will then
 probably come for the same (especially among
 the agricultural classes who have been
 deprived of their means of subsistence by the
 late drought & the consequent famine) and that he
 would be glad to have such works which
 he would prepare to be in consultation with

Mr. B. of Rajahmundry proposed the clearing of a road from
 Rajahmundry to Chhachellum, the plan of a road &
 some distribution channels belonging to Government
 the improvement of the new village of Rajahmundry
 by repairing walls & the same called for action
 for some other information, but not will take some
 time before I receive them, & as it is very desirable
 that I should be able to do so. The Board of
 some relief works as soon as a actual necessity is
 shown for such a measure. They may not be
 may be authorized to spend a small sum & succeeding
 some on relief works in the Bazar. I intend visiting
 the Bazar on my journey back & will then see
 for myself what should be done.

G. B. of Rajahmundry, 28th March 1854 } (12) June 1854
 G. B. of Rajahmundry, 28th March 1854 } (12) June 1854

The Board do not think that any serious famine
 at present or is so far as shown likely to arise
 such as would justify Government in sending a
 request. The harvest in the central portion has been
 good & doubtless grain will come into Chhachellum
 there.

If absolute necessity arises of course
 funds will be forthcoming. The Board should
 prepared should have been to be sent out &
 indicated for, this arrangement for the same
 as well that he is in a position in case of necessity
 without special proposals. He will telegram
 price, nothing at Chhachellum. (12) June 1854
