*Proceedings of the Madras Government, Revenue Department,
11th December 1876.*

No. 227. Read the following Proceedings of the Board of Revenue, dated 29th November 1876, Miscellaneous No. 10,488 :—

Read the following letter from W. H. COMYN, Esq., Officiating Commissioner of the Nilgiris, to H. E. STOKES, Esq., Acting Secretary to the Board of Revenue, dated Ootacamund, 16th November 1876, No. 98.

I have the honor to submit plan and estimate, amounting to Rs. 1,100, of certain alterations proposed to be made in the Commissioner's Office building.

2. The alterations are designed—

First, to provide separate accommodation for the Chief Ministerial Officer on the revenue side. The Sheristadar and Manager now sits in the same room with the other officials and the arrangement is condemned as wanting in privacy. Further, the present office communicates with the Commissioner's waiting-room through an open door-way. In the latter room are in waiting servants, petitioners, and others who are in attendance for various purposes. The Sheristadar's business is accordingly transacted in the hearing of everybody in the adjacent room. The Sheristadar has felt this inconvenience seriously, and it has been a subject of grave complaint by the public. The division of the large office-room appears best calculated to remedy these defects and will not accommodate any part of the establishment. The Sheristadar will then be placed between the Vernacular and English Departments.

Secondly, the provision of separate accommodation for the Special Registrar of the Nilgiris. It is proposed to effect this purpose by dividing the present waiting-room by a deal wall. The Registrar's room will be 18x11 5, which is sufficient accommodation for him.

Thirdly, the addition of a portico to the stamp-room in order that purchasers may obtain stamps through a trap-door from outside the building. Applicants for stamps under present arrangements have uncontrolled access to the room where the treasury business of the office is carried on, and this is decidedly objectionable. The other alterations are merely the transposition of doors and windows entailed by the alterations above enumerated.

4. There is no provision in the budget for this work, but the District Engineer informs me that Rs. 500 of the allotment for repairs of civil buildings in the District is available, and may be transferred. I request that this balance may be provided by a special grant and the transfer sanctioned.

Submitted for the orders of Government.

5. The improvements proposed seem to be very desirable, but this and all similar work that is not of a very urgent nature ought to stand over during the present financial pressure.
