Proceedings of the Madras Government, Revenue Department,
12th February 1876.

No. 137. Read the following Proceedings of the Board of Revenue, dated 2nd February 1876 :—

Read the following letter from J. H. MASTER, Esq., Collector of Bellary, to C. A. GALTON, Esq., Acting Secretary to the Board of Revenue, dated Adoni, 26th January 1876, No. 19.

The Deputy Collector of the Hurpanhully Division recommends a remission of the assessment of certain dry lands in the Hurpanhully Taluq which have been left waste, or in which the crops raised have entirely withered this year for want of rain.

2. This partial remission is said to be required in 56 villages out of 224 villages in the whole taluq. The amount of assessment to be remitted on waste lands is Rs. 1,455, and that of withered crops is Rs. 1,547, making in all Rs. 3,002. The Deputy Collector proposes to give remission with reference to the loss sustained by individual ryots. This course is contrary to the circular orders of the Board of Revenue, No. 20, dated 17th December 1872. I cannot, therefore, support his recommendation. But considering the unfavorable nature of the season this year in this taluq, I have the honor to recommend that I may be authorised to remit one-half of the assessment of the lands all round; this will amount to Rs. 1,500.

3. A copy of the Deputy Collector's letter, No. 12, dated 14th instant, is enclosed.

The Board approve the Collector's proposal to grant remission to the extent of one-half the assessment on the dry lands affected by drought in the Hurpanhully Taluq, i.e., Rs. 1,500. The remission must not be granted with reference to the losses of individual ryots, but should take the form of a per-centage of the assessment on the tracts which have suffered, though the rate need not necessarily be a uniform one for each village.
