*Proceedings of the Madras Government, Revenue Department,
13th December 1876.*

No. 290. Read the following Proceedings of the Board of Revenue, dated 24th October 1876, No. 2,641:—

Read the following letter from S. THOMAS, Esq., Collector of Tanjore, to C. A. GALTON, Esq., Acting Secretary to the Board of Revenue, dated Vallam, 28th August 1876, No. 8,188:—

“I have the honor to acknowledge the receipt of the Government order contained in their Proceedings, No. 1,098, dated the 28th August 1874, printed in Board's Proceedings, No. 6,499, dated the 19th September 1874, I have the honor to submit, for the Board's sanction, my proposals relative to the settlement of the villages belonging to the Nadium Madhum.

2. The villages referred to are six in number as marginally named, and are bounded on all sides by shrotriam villages. The Government villages nearest to Nadium and other villages are Rungnada-puram, Tennangudi, and Pudupatnam, of which the dry and wet rates are as noted below:—

	Dry per Vall.	Wet per Vall.
	Rs. A. P.	Rs. A. P.
Rungnada-puram...	5 15 9	13 8 7
Tennangudi...	5 2 4	35 13 10
Pudupatnam...	1 13 6	17 7 4

3. I enclose a statement, marked A, showing the extent of land in each village, the assessment thereon as proposed by the ryots, and that as recommended by the Deputy Collector. These rates were fixed with reference to those obtaining in the Government villages aforesaid as also to the capability of the soil as compared with the Government villages. Deputy Collector closes with the proposal of the ryots of Nadium in so far as it relates to dry and manavary lands. In the case of wet lands

the Deputy Collector, who has had ample opportunities of testing the soil, urges that the rate should be the same as that of the Tennangudi village, the dry rate of which has been accepted by the ryots.

4. The only other cases in which the ryots proposed rates short of that of the Deputy Collector are in regard to the dry rate of Pungadikkadu and Karambakkadu and wet and dry rates of Palleyodaivoyal. The Deputy Collector maintains his proposal with reference to the dry rates of these three villages on the ground that the dry lands in question are superior to those of Pudupatnam with a rate of Rupees 1-13-6, and more or less equal to those of the other two Government villages, Rungnada-puram and Tennangudi, assessed at Rupees 5-15-9 and Rupees 5-2-4 per vall respectively, and he recommends accordingly the adoption of the rate of the Tennangudi village. As to the wet under-drain rate in Palleyodaivoyal the ryots' proposal has no reference to the rates of Government villages, whereas the Deputy Collector adopts the one obtaining in Rungnada-puram. The difference between the two proposals is but nominal, being only Rupees 0-8-7 per vall.

5. The statement aforesaid shows further at one glance the aggregate assessment for each village according to the two proposals, the one of the ryots and the other of the Deputy Collector, and the Board will also see therefrom that the total assessment under either proposal is more than the basis of the highest of the ten years of rental

C. In regard to tree-tax the Government rules may, with advantage, be extended and made applicable to the small trees. All trees in serai* lands need not be taxed in that the land in which they stand is subject to assessment. As for trees and scattered trees grown in other than serai lands a tree-tax may be levied on every fruit-tree. It is found impossible to ascertain, by actual enumeration of trees, the amount of tax to be imposed on such trees standing on unassessed lands. But the probable amount of revenue derivable under this head is as follows:-

These air villages have to be settled on the fundamental principle and put on a sound basis. In this connection I should not want to mention that there are in these villages vast air masses of peat, lignite and garden containing fruit-trees, and there are lands on which the air (I say so) had the right of occupancy as land of the Government. In the case of these lands the right of tenancy should not be interfered with, as all that Government meant to resume was only the share of the Government or Government, and settlement will have to be made with persons in actual possession of the lands.

10. In the list of the names under reference there are certain minor names printed as *Kalimas* in and *Panda* in, and these are exhibited in the enclosed. In view of the nature of my responsibility in the case of names in the *Pratimsa*, I noted that only such of these names as have been given in the *Pratimsa* of the *Pratimsa* were to be printed as such under *Kalimas* in and *Panda* in, and that the rest were to be printed as *Kalimas* in and *Panda* in.

It is the Government's duty to make certain that it does not compromise the right of the people to the enjoyment of a place. It would be well in the present case to allow the Government to take the land for a period of two years from the date when the Government was made aware of the transaction. We think the best chance may be to get the Government to purchase the land during the two years.

By the same order, Valentin Massieu and Mathias Schell and the *St. Madagascari* the *Indochinois* and *Indiennes* were to remain in the city, to be left unharmed with the exception of the *Indiennes* to be taken to the *Indiennes* for the purpose of making them used to the same clothes and the house of the *Indiennes*.

10. As the village called Parnasumi referred in G.O., No. 40, dated the 11th January 1875, forms part of the enclosures of the Nadiam Madhoo, I add in this letter my proposal with regard to its settlement.

11. The village in question is a deserted one. The tank by which it is irrigated is in dilapidated condition, and its bank has been in many places breached years ago. The cultivable area of the village is only—

Exclusive of Porambock and a minor Inam, no land appears to have been cultivated for the past nearly twenty years except in two years while under attachment by Government, and the collection then was Rupees 3-2-6. One Annachellathavan, who has purchased the Kattimaras right, offers to pay Rupees 3 per veli, and the total assessment at this rate is Rupees 11-13-0. This offer being very low, the Deputy Collector proposes to treat all the lands as dry and assess them accordingly at Rupees 5-8-0 a veli. The total assessment then aggregates Rupees 21-10-0. Annachellathavan accepts this proposal on condition of the village being made over to him with the tank on the terms sanctioned* with regard to ruined tanks. I think the settlement thus accepted may be made.

12. Pending the settlement of these villages, I have entertained the following establishment found necessary under the present Annual system at a monthly cost of Rupees 78 :—

Enclosures Nos 1 and 2.—Statements.

The Board approve the Collector's proposals in regard to the settlement of the
 own villages and the treatment of the minor feuds, and recommended the same for the
 sanction of Government.

Sanction is also requested for the temporary establishment, entertained pending the introduction of the settlement. The cost, amounting to Rupees 73 per annum, will be met from the proceeds of the villages, which, pending further orders, are to be held in deposit.

*Proceedings of the Madras Government, Revenue Department,
13th December 1876.*

No. 201.

Order in Council, 13th December 1876, No. 2,019.

Land Revenue, No. 6.

The Government observe that the only important difference between the rate proposed by the ryots and those by the Deputy Collector is in regard to the wet lands under the tank in Nadiam. As the Deputy Collector's proposal is based on the assessment fixed on lands of similar quality in the adjoining Government village, there can be no real hardship in accepting it. The Government accordingly sanction the settlement made by the Deputy Collector and approved by the Collector and the Board of Revenue.

2. It is not clear why the present settlement was not extended to the land referred to in paragraph 8 of the Collector's letter, as, although the new assessment cannot immediately be adopted, there can be no objection to its coming into force on the expiration of the current lease.

No. 275. Read the following Proceedings of the Board of Revenue, dated 14th July 1874, No. 1,805:—

Read the following letter from the Honorable D. ARBUTHNOTT, Collector of Tanjore, to J. GROSS, Esq., Secretary to the Board of Revenue, dated Point Calimere, 1st June 1874, No. 138:—

I HAVE the honor to submit the following case for the orders of the Board.

2. The Nadiam Mattam, which has formed the subject of much lengthened

The villages are all Inam, and have, under the Inam rules, been confirmed as "Dharmadayam" or "charitable endowment on tax free tenure," to be held without interference so long as the conditions of the grant are duly fulfilled.

4. The conditions of the grant, however, have totally ceased to be fulfilled; for the villages have, with the exception of one, the smallest of all, been sold by the Courts for decrees for debts due by the Gosayi, and have been purchased by various individuals. What belonged to the Mattam was the right of collecting the revenue, and this having been conveyed by the Courts' sales to other individuals, there is nothing left for appropriation to the Mattam; in fact what was exempt from the payment of revenue to Government upon the condition that it was to go to support the Mattam, has now gone to the purchasers of the Courts sales.

5. I request, therefore, that I may be authorized to resume the Inam tenure of the six villages which have been alienated.

SUBMITTED for the orders of Government.

2. The Collector of Tanjore reports that six of the seven Inam villages which form the endowment of the Nadiam Mattam, and which are granted on free tenure so long as the conditions of the grant are duly fulfilled, have been sold by the Courts on account of debts due by the Gosayi, and have thus been alienated from the Mattam, and ceased to satisfy the conditions on which alone they were to continue rent free.

3. The Board are accordingly of opinion that Government have the power to impose full assessment on all these villages and should do so.

4. The orders noted in the margin, and the papers disposed of in them, show that the Gosayi is a man of abandoned character, and that it would be useless to allow any leniency with regard to the Mattam.

5. Moreover, the Board think that the imposition of full assessment on these villages may have some effect in preventing similar fraudulent alienations occurring in future.

6. The Board have carefully considered the effect of Act XX. of 1863 with regard to this case, but they have come to the conclusion that there is nothing in that Act to prevent Government from enforcing its right to impose full assessment on Inams held conditionally when the conditions cease to be fulfilled, even if the Inams were granted as religious endowments.

Land Revenue, No. 6.

His Excellency the Governor in Council concurs with the Board of Revenue that the only course left is to resume the Inam tenure of the villages in question, and he accordingly authorizes the imposition of full assessment.

2. It is unwilling, however, that property once conveyed for beneficial uses should be altogether lost to the public, and accordingly resolves to address the Government of India with the object of obtaining the income of these Inams for some purpose of general utility.

Order No. 6099

To the Board of Revenue

To the Secretary

W. H. French

PROCEEDINGS OF THE BOARD OF REVENUE, dated 24th October 1876.

Read the following letter from H. S. THOMAS, Esq., Collector of Tanjore, to C. A. GALTON, Esq., Acting Secretary to the Board of Revenue, dated Vallam, 28th August 1876, No. 3,188:—

With reference to the Order of Government contained in their Proceedings, No. 1,098, dated the 28th August 1874, printed in Board's Proceedings, No. 6,499, dated the 19th September 1874, I have the honor to submit, for the Board's sanction, my proposals relative to the settlement of the villages belonging to the Nadium Madham.

2. The villages referred to are six in number as marginally named, and are bounded on all sides by shrotriem villages. The Government villages nearest to Nadium and other villages are Ranganadapuram, Tennangudi, and Eudupatnam, of which the dry and wet rates are as noted below:—

	Dry per Veli.			Wet per Veli.		
	Rs.	A.	P.	Rs.	A.	P.
Ranganadapuram	5	15	9	18	8	7
Tennangudi	5	2	4	98	13	10
Eudupatnam	1	13	6	15	7	4

3. I enclose a statement, marked A, showing the extent of land in each village, the assessment thereon as proposed by the ryots, and that as recommended by the Deputy Collector. These rates were fixed, with reference to those obtaining in the Government villages aforesaid, as also to the capability of the soil as compared with the Government villages. Deputy Collector closes with the proposal of the ryots of Nadium in so far as it relates to dry and manavary rates. In the case of wet rates,

the Deputy Collector, who has had ample opportunities of testing the soil, urges that the rate should be the same as that of the Tennangudi village, the dry rate of which has been accepted by the ryots.

4. The only other cases in which the ryots' proposal falls short of that of the Deputy Collector are in regard to the dry rate of Pungudikkadu and Karambakkadu and wet under tank and dry rates of Pallayoduvoyal. The Deputy Collector maintains his proposal with reference to the dry rates of these three villages on the ground that the dry lands in question are superior to those of Eudupatnam with a rate of Rupees 1-13-6, and more or less equal to those of the other two Government villages, Ranganadapuram and Tennangudi, assessed at Rupees 5-15-9 and Rupees 5-2-4 per veli respectively, and he recommends reasonably enough the adoption of the rate of the Tennangudi village. As for the wet under tank rate in Pallayoduvoyal the ryots' proposal has no reference to the rates of Government villages, whereas the Deputy Collector adopts the one obtaining in Ranganadapuram. The difference between the two proposals in this instance, being only Rs. 0-6-7 per veli.

5. The statement aforesaid shows further at one glance the aggregate assessment for each village according to the two proposals, the one of the ryots and the other of the Deputy Collector, and the Board will also see therefrom that the total assessment under either proposal is more than the best of the highest of the ten years of rental from Fash 1271 to 1280 when under Government management. I consider it useless to compare the rates now proposed with those actually collected by the late landlord,

for the statement furnished by the Kudikarnam is entirely unreliable not being framed on an account regularly kept.

6. In regard to tree-tax, the Government rules may, with advantage, be extended and made applicable to these villages. All trees in seigal* lands need not be

* Cultivated.

taxed in that, the land on which they stand is subject to assessment. As for topes and

scattered trees grown in other than seigal lands a tree-tax may be levied on every fruit tree. It is found impossible to ascertain by actual enumeration of trees, the amount of tax to be imposed on such trees standing on unassessed lands. But the probable amount of revenue derivable under this head is as follows:—

	Brut Trees	Today-yielding Coburnia Trees	Total
Nadum	150	16	303
Pandamarakkadu	24	—	24
Ampudikurru	61	4	65
Pargalkadu	10	—	10
Pellamdevoral	27	3	30
Kiamakkadu	24	3	29
	254	26	380

These six villages have to be settled on the mutamfusal principle, and puthas issued for each tract. In this connection I should not omit to mention that there are in these villages what are termed "purnai" lands and gardens containing fruit trees, and there are lands in which the late Chettars had the right of tenancy as also that of proprietorship. In the case of these lands the right of tenancy should not be interfered with, and the right of proprietorship should be reserved to the Chettars or their heirs. In the case of lands in which the late Chettars had the right of tenancy as also that of proprietorship, the right of tenancy should not be interfered with, and the right of proprietorship should be reserved to the Chettars or their heirs. In the case of lands in which the late Chettars had the right of tenancy as also that of proprietorship, the right of tenancy should not be interfered with, and the right of proprietorship should be reserved to the Chettars or their heirs.

7. In five out of the six villages under reference there are certain minor inams granted to Kudikarnam and Pandamarakkadu and these are exhibited in the enclosed statement B, and in pursuance of my recommendations in the remark column of the statement I request that only such of these inams as have been granted for the upkeep of village pagoda services be continued as such under Rule III, Clause 1 of the Inam Rules, and that the rest be fully assessed.

8. The statement referred to in paragraph 5 supra does not represent the total extent of land in the Pandamarakkadu village. It excludes wet land to the extent of 7.7.5.10.12 leased out to one Valluradavi for a period of ten years from 1851 till 1861 and the collection was under Sitar management. As I think the land cannot now be cultivated under present proposals it does not extend to these lands.

9. The value of Nadamarakkadu and Nadum villages called one the *Madam* and the other the *Madam* and these villages should be left unimproved with the Government Order under the name of the *Madam* to authorize the confiscation of buildings which were reserved to the late Chettars under the decree of the High Court in 1851. A provision has been accepted from the provisions of the Madras Regulation VI of 1817 by a later section of Act XX of 1862.

10. As the village of Pandamarakkadu is situated in S.O. No. 40, dated the 11th January 1851, transmitted to the Madras Government, I add in this statement a proposal with regard to the settlement of the same.

11. The village in question is a deserted one. The tank by which it is irrigated is in a dilapidated condition, and its bank has been in many places breached years ago. The cultivable area of the village is only—

	v.	r.	d.
Wet	2	9	12
Dry	1	9	51
Total	3	18	63

Exclusive of Purnaike and a minor Inam. No land appears to have been cultivated for the past nearly twenty years except in two years while under attachment by Government, and the collection then was Rupees 3-2-6. One Amachellathavan, who has purchased the Kudikarnam right offers to pay Rupees 3 per volt, and the total assessment at this rate is Rupees 11-13-0. This offer being very low, the Deputy Collector proposes to treat all the lands as dry and assess them accordingly at Rupees 5-8-0 a volt. The total assessment then aggregates Rupees 21-10-0. Amachellathavan accepts this proposal on condition of the village being made over to him with the tank on the terms sanctioned* with regard to ruined tanks. I think the settlement thus accepted may be made.

* Board's Proceedings, dated 24th May 1863 and 23rd February 1866, Nos. 8, 161 and 1, 413.

12. Pending the settlement of these villages, I have entertained the following establishment found necessary under the present Anam system at a monthly cost of Rupees 73:—

1 Amin on Rupees 12 per mensem	
2 Peons on	5
6 Kavalgare	8

Excesses Nos. 1 and 2

The Board approve the Collector's proposals in regard to the settlement of these villages and the treatment of the minor Inams, and recommend the same to the sanction of Government.

2. The Board is also requested to sanction the establishment of 12 peons and 6 Kavalgare for the maintenance of the establishment. The Board is also requested to sanction the establishment of 12 peons and 6 Kavalgare for the maintenance of the establishment. The Board is also requested to sanction the establishment of 12 peons and 6 Kavalgare for the maintenance of the establishment.

Board's Proceedings, 19th September 1864, Nos. 1, 413, 1, 414, 1, 415, 1, 416, 1, 417, 1, 418, 1, 419, 1, 420, 1, 421, 1, 422, 1, 423, 1, 424, 1, 425, 1, 426, 1, 427, 1, 428, 1, 429, 1, 430, 1, 431,
