have the honor to state that I have been
able to do but very little towards the
preparation of the work on Elemen-
tary Agriculture since my letter to the
Board in March last. At present,

my time is more than fully occupied but,
I will do my best to get the work ready
as speedily as possible; though, its prog-
ress will be exceedingly slow, under any
circumstances, it being the first of the
kind ever attempted in India; while,
there are so few works of reference of
a modern date on scientific subjects,
available in the Libraries of Madras.
