			Stamped Papers, from 2 Annas to 1,000 Rupees value					Up to the present date Stamped Papers have been shipped in the proportion per annum shown in the list accompanying Despatch to India in the Judicial Department, No 23, dated 9th April 1873, and two years' supply has now been nearly completed. The minimum quantity of Stamped Papers that can be ordered annually from Messrs de la Rue under the terms of their contract is two thirds of the quantities enumerated in the list above referred to, but arrangements will be made for limiting the quantity to be manufactured as much as possible to the numbers shown in the list attached to India Financial Despatch, No. 12, dated 28th June 1875. If two thirds of the contract quantities are not received in India, they must be retained in stock in this country. A considerable stock has already accumulated, amounting to nearly two years' supply. In the absence of tenders no further shipments will now be made. The statements in the estimates and other papers that have reached this Office have been in some respects contradictory, and it is impossible, till fuller and more reliable particulars are received, to arrange with Messrs. De la Rue for a modification of their contract. The quantity of Stamped Papers to be manufactured between 1st January and 31st December 1876 will therefore be two thirds of the total quantity shown in the schedule annexed to Messrs De la Rue's contract, the values to be printed being limited to such as appear from present information to be most required. A copy of this contract was forwarded to the Government of India with letter in the Financial Department, No 4, dated 28th January 1875. The contract with Messrs De la Rue is for 15 years from 16th September 1873, terminable at the end of
