CIVIL SERVICE OF INDIA.

Open Competition of 1874.

TABLE OF MARKS.

NOTE.—The following extract from the Tenth Report of the Civil Service Commissioners refers to a change in the mode of assigning marks:—"It has already been mentioned as one of the ruling principles of these examinations that no candidate should be allowed any credit at all for taking up a subject in which he is a mere smatterer. Hitherto we have thought it enough, in conformity with this principle, to strike out all marks which indicated less than a competent knowledge of the subject selected; leaving those whose knowledge exceeded, by ever so little, the minimum of competence, to count all the marks assigned to them. We are of opinion, however, that superficial study may be more effectually discouraged by allowing no credit for slight knowledge even to those candidates who succeed in passing beyond it. We propose, therefore, that from the marks of all candidates alike a number answering to this slight knowledge shall be deducted; but that it shall be possible, nevertheless, for any candidate who may show remarkable proficiency in any subject to obtain the full number of marks allotted to that subject."

On this occasion a deduction of 125 has been made from the marks assigned in each subject.
