2-W.

No. 477. *Note by the Chief Engineer for Irrigation.*

THE Superintending Engineer, K forwards with his letter marginally noted an estimate in connection with the Viswanadapully Pulivartivari tank, situated in he Bunder taluq, Masulipatam range.

No. 34, dated 5th June 1876.

2. The nature of the work p for execution and the heads of account to which it is chargeable are as follo

ORD AGRICULTURAL.

Rs.

	Rs.
Repairing the bund	420
Total ...	420

3. The following particulars tank are recorded :—

Ayacut area	... Acres	445
Assessment	... Rupees	1,830
Average revenue	... „	737
Highest do	... „	817
Expenditure during the previous years	„	578

The area of the catchment ba square miles, the maximum flood supply is calculated at —— cubic feet p for discharging which as surplus there is no outlet.

The estimate provides for rep bund.

4. The work provided for estimate has been undertaken on emergency and sanction is therefore recomm ough the papers contain no information as to whether it is or is not practic ur a recurrence of breaches. The tank is situated in the island of Divi ed by an inundation channel. It is not clear that some effective m ple and inexpensive character could not be adopted for the discharge of the Kistam crops are unusually high.

If the Bank canal estima Delta be sanctioned, the whole system of irrigation in the island will be c it is not worthwhile to carry out at present any permanent works which m superseded.

ORDERED,

21*st September* 1876.
