Revenue Department
Miscellaneous No 9038
Proceedings of the Board of Revenue
dated 26 October 1866.

Read statement from the Collector
of Bellary dated 20th October 1866
of price of food grains in Bellary
District during the week ending
19 Oct 66 as compared with the
corresponding period of the previous
year and 1866.

The rise in prices shown in
the return is very marked.

The Collector has already
raised the rate of relief on public
works to two annas a month and
to women and children in pro-
portion. The prices prevailing in
the corresponding period of 1865
are added in the note. They were
then 10 to 25 per cent. higher than
those now obtained.

Yours respectfully

W. H. P. S.

Secretary to the Board of Revenue
Bellary District

of cumulative percentage showing the prices of the principal foreign grains in 1966, as compared with the corresponding periods of the previous years and 1965.
