March last, and, in conveying the sanction of the Governor-General in Council to the estimates submitted aggregating Rupees 18,04,640 in amount, as detailed on the margin, for completing and perfecting the system of Irrigation and Navigation in the western section of the Godavery Delta, to state that his Excellency in Council has been much gratified with the very satisfactory manner in which the project has been prepared and laid before the Government of India, and trusts that it will prove as remunerative as anticipated.

2. With reference to paragraph 10 of the Note by the Chief Engineer, I am to state that his Excellency considers it desirable that the extension of the Nursapur Canal to Mogultoor should not be deferred, but undertaken at once.

3. With regard to the proposal to postpone, for the present, the connection of the Attili Canal with the other navigable canals, I am to add that, although there may be no apparent immediate necessity for making this connection, yet it seems very undesirable to leave this canal isolated from the rest, and, therefore, the matter should not be lost sight of.

4. This sanction, debitable to loan funds, has been registered as No. 49-I. of 1871-72, and cancels that accorded to the original estimate for restoring navigation with the Weyairu in letter No. 40-I. of the 7th February last.

5. The plans and estimates received with the letters under reply are herewith returned.
