*Proceedings of the Madras Government, Public Works Department,
14th November 1876. No. 3,053.*

No. 247. Read the following letter from Major J. BEATTY, R.E., Officiating Superintending Engineer, Godavery, to Major-General G. W. WALKER, R.E., Secretary to Government, Public Works Department, dated Dowlaishweram, 31st October 1876, No. 2,165 :—

As directed in G.O., No. 2,556, of 25th September 1876, I have the honor to forward herewith Mr. Vanstavern's estimate of the cost of sinking a shaft 10 feet interior diameter and 200 feet deep at Beddadanoole at any spot selected by the Geological Department.

2. The estimate provides for steining the whole depth of the shaft, and for pumping out the large in-flow of water expected. It amounts to Rupees 14,705, of which Rupees 10,830 is for machinery and tools.

3. The cost of conveying the coal to Dowlaishweram would be about $4\frac{1}{2}$ to 5 Rupees per ton.

No. 248. ORDER THEREON, 14th November 1876, No. 3,053.

CIVIL WORKS, No. 18-A.

THE consideration of this project will be postponed for the present. When again taken up it will be ascertained whether it may not be carried out with a smaller shaft and less costly gear.

(True Extract.)

(Signed) G. W. WALKER, Major-General, R.E.,
Secretary to Government.

To the District Engineer, Godavery.
To Mr. King.
To the Public Department.
