No 104

General Hospital 13 April 1876

From

Surgeon Major W. C. Fennell, M.D.
Senior Med. Off. G. Hospital

To

The Secretary to Government
Revenue Department,
Calcutta.

Sir,

I have the honor with
reference to the Proceedings of Govern-
ment Revenue Department, dated 16th
April 1876 and Order thereon dated
4th April 1876 No. 474, respectfully to
point out—

1. That the G.O. of 26th April
1874, No. 504 wherein it was directed
by the Secretary of State "that other
and careful experiments should
be instituted" was never commu-
nicated to me but to my
predecessor (Mr. G. Smith), who has
charged

charge of the Hospital in June 1874.
so that I was not aware that the
trials called for were specially
demanded by the Secretary of State.
I was not even aware of the
existence of the S. O. or despatch
alluded to, a circumstance which
the Surgeon General no doubt overlooked.

Note
The S. O. having
been announced
by the Surgeon
General or his
officers in charge
of the Hospital (Dr.
Smith) it was
perhaps naturally
supposed by the
Surgeon General
that in succession
of Dr. Marshall
some misunderstanding
very common
and as regards
of the official
signature taken
entirely overlooked.

2. That the remark of the
Surgeon General "that it will now
be impossible to institute any
further experiments with Calomel
Irenovate as there are no supplies
of the drug available" is not in
accordance with the fact nor a
fair deduction from any report.
Very far the greater portion of the
drug is still available, the medicine
not having been found efficacious,
and a fair report to this effect
being on record, it was not
deemed necessary to continue it trial.

The

3. That the medicine having
been thus sent to me, in the busiest
period of the Session, without any
special recommendation for its trial
(indeed it will be seen that the
Orders of Government giving cover
to the Secretary of State's despatch
were circulated in June 1874 to
one Officer (Dr. L. Smith) and the
medicine itself delivered six months
after to another Officer without the
despatch or Orders) was for a time
overlooked, and subsequently not
tried in a way to meet with
approval. I admit, and whilst
deeply regretting the occurrence of
this oversight I sincerely hope
that under the circumstances men-
tioned above, His Grace the
Governor in Council will have
the kindness to withhold the ex-
pression of his great dissatisfaction,
which

which I have thus unwittingly called
down upon myself, whilst I
institute a series of careful
experiments with the rest of
the Regt and report accordingly.
