Rupees 14,26,000 but taking into consideration the probability of an increase in other districts the Board fixed the rate at 12½ lacs. The loss in 1876-77 was estimated at 4 lacs with reference to the Ricks falling due within the last three months of the Fasli, due allowances being made for the possibility of a recovery of a portion of the estimated loss for 1875-76 but for which the loss would have been estimated at 6¼ lacs. The result is that if the Board's predictions are fulfilled the sum of 16½ lacs will be absolutely irrecoverable.

2. The Collectors of the Districts named in the margin will be requested to telegraph to this office on the 1st March, the Land Revenue Collections up to date, and the probable Collections in March - and state how far the Board's estimate
