*Proceedings of the Madras Government, Public Department,  
12th February 1876.*

**Books and Publications.**

No. 35. Read the following despatch from the Right Honorable the Secretary of State for India, to the Right Honorable the Governor-General of India in Council, dated India Office, London, 23rd December 1875, No. 43 (Geographical):—

My attention has been drawn to a letter\* from the Officiating Secretary to the Government of Bengal to the Under Secretary of State at this office, advising the despatch of certain reports relating to Indian Meteorology.

2. Seventy-five parcels have been received at this office, which may possibly contain the reports referred to, but identification has been found impracticable, as the total number of copies forwarded was not stated in the letter of advice, and the contents of the parcels did not, from the inspection of one or two of them, appear to be correctly described.

3. Instructions have, however, been issued for the transmission to their respective destinations of all the parcels in question, with the exception of one† Addressed to Symon's Monthly Magazine, London, the address of which cannot be traced.

4. I have to request that in future, when copies of any reports or publications are being sent home for distribution, care may be taken that a proper list of the intended recipients shall be forwarded, together with a letter of advice, in which all details necessary for identification are given.

**No. 5.**

Copied forwarded to the Government of Madras for information and guidance.
